

Mile 8 Utilities, LLC Water
Connection Fee Rules
September 24, 2018

Payment of \$391.99 and completed Builder Application is required in advance to connect to Mile 8 Utilities, LLC.

\$300.00	System Connection fee
\$ 45.00	Inspection of the connection
\$ 45.00	Inspection of the installation of a 007 or 009 Double-Check Valve and Backflow Preventer and water key turn-on
<u>\$ 1.99</u>	<u>RCC fee of 0.511%</u>
\$391.99	Total

Builder must call Mile 8 Utilities to schedule an inspection of the connection, with a 24-hour notice. If a connection is backfilled prior to inspection, it will be the builder's responsibility to excavate the area for inspection. Builder must call Mile 8 Utilities to schedule a water turn on, with a 24-hour notice.

Residential Service charges:

Once a house is connected to the water system and the water turned on the owner will be billed \$55.27 a month for service, plus RCC fee of \$0.511% (total billing \$55.55). If connected to Mile 8 sewer services, the owner will also be billed \$105.68 per month, plus RCC fee of \$0.511% (total billing \$106.22).

Commercial Service charges:

Once a commercial building is connected to the water system and the water turned on, the owner will be billed as follows:

\$8.29 per thousand gallons
Monthly minimum: \$55.27

If connected to sewer services:

\$80.64 per month flat charge
\$11.28 per 1000 gallons (based on 60% of metered water)

Plumbers may turn on water to pressure check the system only. An illegal water turn on by the builder will incur a \$250 charge. Builder must ensure the keybox is in working condition prior to water turn-on request. Builder will be charged an additional \$45 in the event a return trip is needed for inspection/water turn on. It is the Builder's responsibility to have a new homeowner complete a utility service application and fax it to 745-5699.
