

*New for 2018*

*Massage whether Sensual or Tantric creates a warmth between partners. It's time to be together to leave any disagreements at the door and appreciate each other in a warm, safe environment.*

*This year I will be offering introductory lessons to couples who want to learn the secrets of erotic massage. These lessons offer an intimate environment as opposed to Workshops where you are one of several couples.*

*Please note whilst we will be working with sexual energy, no intimate/genital massage will be undertaken during this session.*
