

### Company Summary

**North Point Engineering Corporation** provides specialized civil and environmental engineering consulting services to both the public and private sector and has successfully completed many diverse projects. We offer a broad range of services with particular expertise in **landfill and agricultural design, environmental permitting, construction management and environmental assessment**. NPE places strong emphasis on service and focuses on the specific needs of our clients.

NPE's staff is large enough to meet project goals yet small enough to maintain personal and professional service.

NPE takes pride in our project management experience and our industrial operations background allows us to be the single cost effective resource to many of our clients.

### Insurance

NPE also maintains liability insurance policies including **professional liability, contractors pollution liability and commercial general liability**. These policies provide added protection to our firm and our clients.

### Technical Expertise of Staff

NPE's success is driven by the expertise and efforts of our highly qualified staff. One of our strengths is the experience our key staff has gained while previously employed in the private industrial sector.

NPE's key project management staff has more than 77 years of combined experience in various types of civil and environmental engineering and solid waste landfills. Our background has given us practical, hands on experience and the ability to balance design and regulatory considerations with economic and liability factors.
