

Eyelash Extensions

Relax on a comfortable facial table and listen to music or fall asleep. Our high quality mink extensions are expertly applied to appear natural and feel weightless.

Choose the length and thickness you desire for your lash extensions. From natural yet gorgeous to all out glamorous!

Your first full set takes up to 2 hours to apply and lasts until your natural lashes shed on their own. They must be filled every 2-3 weeks to maintain a full and beautiful look.

Each individual mink lash extension will be attached safely to an individual lash of your own. The adhesive never touches your eyelid and the extensions feel completely weightless once completed.

They are waterproof and there is no need to wear mascara once you have them applied. Enjoy waking up looking gorgeous without any effort what-so-ever!
