

Investments *Submitted by Carol Rice*

If you had purchased \$1,000 of shares in Delta Airlines 5 years ago, you would have \$49 today!

If you had purchased \$1,000 of shares in AIG 5 years ago, you would have \$33 today!

If you had purchased \$1,000 of shares in Lehman Brothers 5 years ago, you would have \$0 today!

But, if you had purchased \$1,000 worth of beer one year ago, drank all the beer, then turned in the aluminum cans for the recycling refund, you would have received \$214.

Based on the above, the best current investment plan is to drink heavily & recycle. It is called the 401-Keg.

And as a bonus... A recent study found that the average American walks about 900 miles a year. Another study found that on average Americans drink 22 gallons of alcohol a year. That means that the average American gets about 41 miles to the gallon! Makes you damned proud to be an American!
