

# Transformational Healing through Sound:

Jeff  
Klein  
and the  
Crystal  
Bowls

## WHAT ARE CRYSTAL SINGING BOWLS?

The Crystal Singing Bowls are made from the Purist Quartz Crystal on the Planet. The Alchemy Bowls are infused with gemstones, minerals, and precious metals to enhance their healing power. When the bowls are chimed or played they Sing, sending out a harmonic vibration that extends one-third of a mile out.

## WHY DO THEY AFFECT OUR BODIES?

We have a natural affinity to quartz because our bodies are composed of many crystalline substances. Our bones, blood, and DNA are crystal in nature. Our brains also have a liquid crystal colloidal structure. Even on a molecular level, our cells contain silica which balances our electromagnetic energies.

## HOW DO THEY MAKE US FEEL?

When the Bowls are played, the harmonic frequency wave penetrates the Physical, Mental, Emotional, and Subtle Bodies, cleansing and purifying, even on a DNA cellular level. The crystal harmonic sine waves bring us into a state of balance, vitality, relaxation, and an overall sense of well-being.
