

PRELIMINARY SCIENTIFIC PROGRAM—ICA 2017									
THURSDAY, 7 SEPTEMBER 2017				FRIDAY, 8 SEPTEMBER 2017				SATURDAY, 9 SEPTEMBER 2017	
08.30 09.00	OPENING CEREMONY—WELCOME ADDRESS <i>Lecture Hall</i>			08.30 10.00	CHALLENGES IN THORACIC AORTIC SURGERY <i>Lecture Hall</i>	08.30 11.30	TRAINING WORKSHOPS	08.30 10.00	NEW TRAINING CONCEPTS—HOW SHOULD WE TEACH THE NEXT GENERATION? <i>Lecture Hall</i>
09.00 10.15	THERAPY OF VASCULAR STROKE <i>Lecture Hall</i>	09.00 12.00	TRAINING WORKSHOPS		Genetics on Thoracic Aortic Aneurysms J. Elefteriades, New Haven	FEVAR <i>Sponsored by Gettinge Room 1</i>			Implications of Work—Time Regulations: The Chief's Perspective W. Hoffmann, Feldkirch
	Structure of Stroke Centers: A Multidisciplinary Approach—An American Perspective S. Saha, Lexington	Aortic Interventions Standard EVAR I <i>Sponsored by Vascutek Room 1</i>			Outcomes of Conventional Aortic Arch Repair M. Grabenwöger, Vienna				Implications of Work—Time Regulations: The Resident's Perspective F. Taher, Vienna
	Stroke Units and the Austrian Stroke Unit Network W. Lang, Vienna	Percutaneous Access <i>Sponsored by Abbott Room 2</i>			Indications and Outcomes of Endovascular Aortic Arch Repair T. Kölbel, Hamburg	Peripheral Interventions II <i>Sponsored by Cook Room 2</i>			New Training Concepts in Cardiology T. Weiss, Vienna
	Update on Thrombolysis in Acute Stroke Patients W. Pirker, Vienna				Paradigm for Detecting a Silent Killer J. Elefteriades, New Haven				New Training Concepts in Radiology C. Loewe, Vienna
	Intracranial Thrombus Retrieval: Techniques & Results F. Wolf, Vienna	Coronary Interventions I <i>Sponsored by Cordis Room 3</i>			TEVAR for Acute Thoracic Aortic Injury R. Franz, Columbus	EVAR II <i>Sponsored by Medtronic Room 3</i>			New Training Concepts in Cardiac Surgery A. Kocher, Vienna
	Optimal Timing of Carotid Revascularization G. deBorst, Utrecht								New Training Concepts in Vascular Surgery J. Falkensammer, Vienna
	Discussion				Discussion				Discussion
10.15 10.45	COFFEE BREAK <i>Exhibition Hall</i>			10.00 10.30	COFFEE BREAK <i>Exhibition Hall</i>			10.00 10.30	COFFEE BREAK <i>Exhibition Hall</i>
10.45 12.15	ICA SPECIAL LECTURES IN CAROTID REVASCLARIZATION <i>Lecture Hall</i>			10.30 12.00	THORACOABDOMINAL AORTIC ANEURYSM REPAIR <i>Lecture Hall</i>			10.30 12.00	NEW HORIZONS IN PERIPHERAL ARTERY DISEASE <i>Lecture Hall</i>
	Near Infra-Red Spectroscopy Analysis of the Carotid Artery Plaque Composition Based on the Distribution of Endothelial Shear Stress M. Horváth, Prague				Immediate and Long-Term Outcome of Open TAAA Surgery A. Greiner, Berlin				Stem Cell for the Treatment of Peripheral Arterial Disease R. Franz, Columbus
	Optimal Medical Treatment— Standard of Care for Patients with Carotid Artery Disease M. Brodmann, Graz				Immediate and Long-Term Outcome of Endovascular TAAA Surgery R. Kasprzak, Regensburg				Endovascular Management of total Occlusion of the Abdominal Aorta: Mid-Term Follow-Up S. Saha, Lexington
	Identification of High-Risk Patients with Asymptomatic Carotid Stenosis: Fact vs Fiction Wei Zhou, Tucson				Spinal Cord Ischemia after TAAA Repair-How Can this Complication be Prevented? Open Repair <i>J. Schmidli, Bern</i>				A Comparison of the Clinical Efficacy, Cost & Quality of Life of Open Surgical Bypass & Endovascular Therapy in Patients with Critical Limb Ischemia A. Farber, Boston
	High Grade Asymptomatic Carotid Stenosis: Who Should be Treated? H.H. Eckstein, Munich				Spinal Cord Ischemia after TAAA Repair-How Can this Complication be Prevented? Endovascular Repair P. Kasprzak, Regensburg				
	Indication for Carotid Surgery in Women T. Cohnert, Graz				The Future Standard of Care for Juxtarenal AAA's A. Greiner, Berlin				
	Discussion				Discussion				Discussion
12.15 13.00	LUNCHEON BREAK <i>Exhibition Hall</i>			12.00 12.45	LUNCHEON BREAK <i>Exhibition Hall</i>			12.00 12.45	LUNCHEON BREAK <i>Exhibition Hall</i>
				12.00 12.45	IMPLICATIONS OF ANTITHROMBOTIC THERAPY IN ACUTE AND ELECTIVE VASCULAR SURGERY				

					<i>(Sponsored by Daiichi Sankyo/Mitsubishi)</i> Lecture Hall				
					Perioperative Management of Patients on New Oral Anti-Coagulants I. Pabinger, Vienna				
					ACCP Guidelines for Patients with Heparin-Induced Thrombocytopenia Type J. Klocker, Innsbruck				
13.00 14.15	CARDIOGENIC SHOCK <i>Lecture Hall</i>	13.30 16.30	TRAINING WORKSHOPS	12.45 14.00	JUXTARENAL AAA REPAIR <i>(Sponsored by Vascutek)</i> Lecture Hall	13.00 14.00	TRAINING WORKSHOPS	12.45 14.00	OPTIMAL PREVENTION STRATEGIES IN 2017 <i>Lecture Hall</i>
	The Risk of Stroke in Atrial Fibrillation B. Lüderitz, Bonn	Iliac Interventions & CERAB <i>Sponsored by AMP/Bentley Room 1</i>			Impact of Clamping Level on Morbidity and Mortality J. Schmidli, Bern	EVAR III & TEVAR <i>Sponsored by Cook Room 1</i>			Treatment Modalities for Advanced Glycation End Products & its Receptor Mediated Cardiovascular Diseases K. Prasad, Saskatoon
	The Role of Silent AF in Stroke Etiology M. Stühlinger, Innsbruck	Peripheral Vascular Interventions 1 <i>Sponsored by Cook Room 2</i>			The 90° Angle—Standard Anaconda in Angulated Necks A. Stehr, Mülheim				The Role of Non-Traditional Cardiovascular Risk Markers in the Era of Multiple Guidelines T. Whayne, Lexington
	Triple Therapy in AF after PCI—For Whom and for How Long? H. Alber, Klagenfurt				Development of a New Device for the Treatment of Juxtarenal AAA N. Burfitt, London	The Iliac Branch Device <i>Sponsored by Jotec Room 2</i>			PCSK9 Inhibition: The Holy Grail? K. Huber, Vienna
	Do we Need an Antidote for NOAC's? K. Huber, Vienna	Coronary Interventions II <i>Sponsored by Cordis Room 3</i>			Mid-Term Results after Fenestrated Endovascular Aortic Repair (FEVAR) A. Assadian, Vienna				Why is Cardiovascular Mortality Still the Leading Cause of Death? O. Pachinger, Innsbruck
					Endovascular Treatment for Type IV TAAA J. Falkensammer, Vienna	TAVI <i>Sponsored by Medtronic Room 3</i>			AGEs/sRAGE but not sRAGE is a Risk Marker for Cardiovascular Disease K. Prasad, Saskatoon
	Discussion		Discussion		Discussion				Discussion
14.15 14.45	COFFEE BREAK <i>Exhibition Hall</i>			14.00 14.30	COFFEE BREAK <i>Exhibition Hall</i>		14.00 14.30	COFFEE BREAK <i>Exhibition Hall</i>	
14.45 16.00	VALVULAR INTERVENTIONS <i>Lecture Hall</i>			14.30 15.45	STRUCTURAL HEART DISEASE <i>Lecture Hall</i>		14.30 15.45	Special ICA Lectures in Interventional Cardiology: PCI vs CABG in Left Main Disease	
	Surgical Aortic Valve Replacement—State-of-the-Art G. Laufer, Vienna				Novel Findings in Hypertrophic Cardiomyopathy J. Veselka, Prague			Protagonist J. Veselka, Prague	
	Indications & Outcome of Transcatheter Aortic Valve Implantation F. Egger, Vienna				Thoracic Aortic Aneurysm: Reading the Enemy's Playbook J. Elefteriades, New Haven			Antagonist M. Grimm, Innsbruck	
	Should TAVI be Performed in Intermediate Risk Patients? G. G. Delle-Karth, Vienna				Preserving the Aortic Valve in Ascending Aortic Aneurysms <i>M. Grimm, Innsbruck</i>			Comments O. Pachinger, Innsbruck	
	Lotus: A New Generation of Transcatheter Valve P. Hájek, Prague				Simultaneous Transcatheter Aortic Valve Implantation and Left Atrial Appendage Occlusion <i>R. Binder, Zürich/Wels</i>		END OF SCIENTIFIC PROGRAM		
	Tricuspid Valve—An Overview from a Surgical Aspect Choi-Keung Ng, Innsbruck								
	Discussion				Discussion				
16.00 16.15	COFFEE BREAK <i>Exhibition Hall</i>			15.45 16.00	COFFEE BREAK <i>Exhibition Hall</i>				
16.15 16.45	Vascular Workshop <i>Chairman: J. Klocker, Innsbruck</i> Poster Session			16.00 16.30	Interventional Cardiology Workshop Poster Session				
18.00 22.00	WELCOME DINNER and CONCERT AT KURSALON
