**Meeting Re: S. Quebec St./E. Iowa Intersection Changes:** A meeting was held at the Eloise May Library on Dec. 19<sup>th</sup> 5-6:30. Councilman Paul Kashmann was there as were two traffic engineers for Denver. The Dept. has already re-striped the intersection at Florida/Quebec to allow two left turn lanes onto Quebec. It is the intent of the Traffic Dept. in January to disallow left turns from Iowa onto Quebec. There were approximately forty homeowners there representing Indian Creek, Landmark, and Concha. This proposal was met with vigorous dissent from the attendees. Several alternate proposals were offered by residents, the most feasible seemingly being a stoplight at Iowa/Quebec. The engineers opined that at this time the intersection did not qualify for a stop light based on their qualifications. If you would like more information, a summary will be sent from the engineers to Kashman's office and you can request a copy. Disagreement with his solution from the traffic engineers should be directed through dialing 311 and registering your disagreement/complaint. This is highly unpopular with residents and will demand extraordinary resident response to change it.

**We wish for all of you a safe New Year's**
