

**Title:**

Meeting the Many Challenges of AML: Oncology Nurse Tactics in an Era of Novel Therapies

**Speaker:**

Laura J. Zitella, MS, RN, ACNP-BC, AOCN

Hematology/Oncology Nurse Practitioner

Associate Clinical Professor

University of California San Francisco

San Francisco, California

**Objectives:**

\*Cite updated evidence about the efficacy and safety of newer cytotoxic, targeted, and epigenetic strategies for the management of AML

\*Manage safety considerations in patients with AML who are receiving novel cytotoxic or targeted therapeutics

\*Address psychosocial, longer-term care, dosing, and adherence considerations in patients with AML who are receiving novel therapeutics

\*Educate patients about the clinical benefits of novel therapies, relevant prognostic factors, and potential safety issues associated with newly approved treatments for AML
