DESCRIPTION: This RARE re-conditioned Bear Black Panther is a great looking and performing re-curve. Attractive Zebrawood riser. Factory stabilizer bushing. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes; No chips, dings or cracks. No crazing or stress cracks; A few minor scratches and nicks here and there. The limbs needed to be stripped and refinished, and most of the decals were lost in the process; The patent decal is original but the other two Bear decals are reproductions. This bow was put to a stress test (held at full draw for 16 hours) to make sure the old glues still held and no stress cracks developed. It was then tested and shot several times.

Comes with a used but serviceable string.
