

Interleave Quilts Workshop

Kyona Nason

In this class, you'll learn how to piece curvy designs with zero curved piecing. I'll also teach you a quilt-as-you-go technique, so you can leave with a nearly completed piece!

Notions & tools

Sewing machine with $\frac{1}{4}$ " piecing foot – walking foot if available

Rotary cutter & mat

Ruler you are comfortable using to cut 1" wide strips (a strip cutting ruler with 1" slots works well - I love my Stripology rulers!)

Fabric scissors

Iron & ironing pad

Pen/pencil (for notes and marking fabric)

Straight pins

Safety pins for basting

Thread & other common sewing notions

Fabrics & materials

4 contrasting fabrics cut to 18 x 9.5

Fabric selection: contrast in color and/or value is very important in interleave quilts to get the design to emerge. I like to use solids or prints that appear as solids because I am drawn to bold geometric shapes, but you can use any fabrics you like.

Fabric for backing (20 x 20)

Batting (20 x 20)

Gridded interfacing (e.g. Pellon 820) (20 x 20) I can supply this if you don't have it already. Using a pencil and your ruler, draw additional horizontal lines on your interfacing to divide it into $\frac{1}{2}$ inch sections.
