

## GeeZee (a.k.a. Green Zone) MOBILE APPLICATION TO HELP KEEP ALL YOUR LOVED ONES SAFE

### KNOWLEDGE IS POWER AND A KEY TO A SAFER FAMILY LIFESTYLE

**Protect any family member walking, biking or driving away from home with a phone from kindergarten through high school, college and beyond:**

- 93% of children have simply misunderstood directions or miscommunicated their plans, are lost or have run away.
- 9% are kidnapped by family member in a custody dispute.
- 3% are abducted by non-family members, usually during the commission of a crime such as robbery or sexual assault. The kidnapper is often someone the child knows.
- Every 40 seconds in US a child goes missing and about 100 children are kidnapped each year in the stereotypical stranger abductions you hear about in the news.
- 7% of missing persons annually are elderly adults between the ages of 50-99 normally due to early stages of dementia and Alzheimer's disease.
- There are many statistics stating that as many as 5 college students go missing per month on campus or during spring break.

### BUILD A GREEN ZONE AROUND YOUR CHILD TO KEEP DANGER AWAY

Once a child leaves the safety of their home and immediate surroundings, *i.e.*, *Family Green Zone*, which may be a few hundred yards (non-drivers) or a mile or two (drivers) out of their neighborhood they are exposed to many dangers.

**These are the key risks your child faces when they leave home:**

- Inappropriate and unwanted contact or advances from strangers

- Giving in to peer pressure, *i.e.*, *older kids*, to drive or walk to a place or home with no parental supervision
- Driving to secret location to meet new boyfriend or girlfriend not approved by parents
- Giving in to natural child curiosity or feelings of independence to go to forbidden locations by their parents
- Talked into dangerous or illegal activity by online predator to meet at undisclosed location

### WHAT CAN YOU DO TO KEEP YOUR LOVED ONES SAFE WHEN THEY LEAVE THE HOME?

Protect your children when they are not in your sight. Talk with them about their activities, set safe limits and choose a powerful parental locator software package like **GeeZee** to protect your children when they leave their "safe" house and allows you to actively monitor them from your phone where ever they go. Enjoy piece of mind knowing **GeeZee** will send alerts if not running, *i.e.*, *swiped off*, and restrictions may be set to not allow app to be deleted or locations services to be disabled.

### GEEZEE FAMILY RADAR & REPORTER SOFTWARE CAN PROTECT YOUR LOVED ONES EVERYWHERE THEY GO

**GeeZee** is the most comprehensive family radar software on the market today, combining more safety features to protect your child than any other location monitoring software.

- Always gives child easy and quick access to parent to let them know they have reached destination, pick them up or if they are feeling uncomfortable
- Receive automatic alerts to your phone for possible dangerous behavior when child leaves green zone safety circle and enters yellow or red zones
- View map and directions to any of child's yellow or red zone locations
- Receive alerts whether **GeeZee** is running or not, *i.e.*, swiped off phone's active application list

## SAFETY FEATURES

	WHAT DOES GeeZee DO?	HOW DOES THIS PROTECT YOUR LOVED ONES?
Tracks and alerts on all GPS location activity	Tracks and alerts on all phone movements outside of family green zone.	Knowing where your children or senior parents go when you're not with them.  You can step in and call or text them if they are engaging in abnormal or inappropriate activity.
Set safe locations	Create safe locations outside the green zone to avoid unwanted alerts when family member, i.e., <i>child</i> , is at known safe houses outside of home like:  School, Grandparents, Uncles and Aunts, friends, work, etc.	Insure parents are not overwhelmed with false/positive zone violations so they don't miss the critical ones.
Automatic alerts to parent phone in real time	Parent reporter application receives alerts in real time any time family member leaves the green zone and crosses into a yellow or red zone.	Be aware of what's going on, before things get out of control. Often parents do not become aware of dangerous activity until it's too late.
Change/Add safe locations or zones on all child phones remotely	Change or add safe locations on any child phone at any time from parent reporter phone.  Change green or yellow zone distance and how often child's position is checked at any time from parent reporter phone.  Add multiple yellow zones to see if child took detours when driving to and from school	Gives you total control of child's safe boundaries without having to have access to their phone.
View all zone violations to check addresses and get directions	View zone violation report of any selected date range for any family member.  View address information and get walking or driving directions to any location.	Gives you exact location in real time.
View location maps in Satellite mode	View all zone violations in detailed satellite or normal street map view.  Get directions to any zone violation address.	Gives you details of their surroundings.
Discreet mode	<b>GeeZee</b> runs unobtrusively behind the scenes. <b>GeeZee</b> does not slow your phone down. <b>GeeZee</b> does not impact phone battery life.	Sometimes a soft touch just works better...Children may respond better to discreet guidance rather than a more authoritarian approach. Decide what's right for your family.
Supported phones	All iPhone and iPad iOS versions. All Android versions.	<b>GeeZee</b> does not jail break Apple iPhone to support any features.
Child check in to parent support	Locator application supports the following three hot buttons for child to communicate quickly and silently in real time to parent:  <b>HERE:</b> Send alert to parent that child is safely at their destination address  <b>OK:</b> Send alert to parent that they are ok but feeling uncomfortable where they are  <b>PICK ME UP:</b> Send alert to parent to pick them up at address where they are without being obvious about it making it easier to escape an uncomfortable situation without triggering peer pressure to stay	Gives child easy and quick access to parent to let them know they are ok or help them if they are feeling uncomfortable in a social situation.
