

## ASCE & SEA OH MARCH JOINT DINNER MEETING NOTICE

**Title:** Reliability or Liability of Concrete Testing Technicians and Inspectors?

**Program:** "Quality assurance of concrete testing is not consistently performed in accordance to ASTM standards" ...a prevalent concern among ready mix producers locally as well as nationally. All project participants, engineers, contractors, and owners are affected by substandard testing practices, as false-positive or false-negative test results can lead to rejection of good concrete product or acceptance of bad quality concrete, respectively. A panel discussion among key industry professionals will have recommendations for engineers and contractors to evaluate and assist technicians /inspectors to become more reliable in the quality control testing and inspection of concrete.

**Panelists:** Gaur Johnson, UHCEE; Tim Folks, Hawaiian Cement; Keith Blazer, Hayre McElroy & Associates; and Ibbotson Kellet, Special Inspection Consultants. Presented by the Cement and Concrete Products Industry of Hawaii.

**Who Should Attend:** Engineers, contractors, special inspectors, testing lab & other QA/QC personnel
