

Good morning!

Take a look at a potential travel play [here](#). Travel or not? Did you watch and say in your head “I can’t tell when the dribble ended” or “I can’t tell if the defender hit the ball” or you needed slow motion to help? If you asked that or needed slo-mo to decide, it is NOT a travel.

If we are not positive in real time, it isn’t a violation. We can’t use that as an EXCUSE to not call a violation, but if it is truly too hard to tell in real time.....no air in the whistle!

Short and sweet today!

Monday Extra: Coming out of a TO, we *always* need a short blast on the whistle to gain attention that we are resuming play. Easy to do on a throw-in....on a free throw(s) we still blow the whistle and after it drops from our mouth, say ‘One shot’ (or however many are remaining) and bounce the ball to the shooter.

Have a great game tonight!

Tim
