DESCRIPTION: Great looking and performing Grizzly recurve made from Bear's "Futurewood" (resin impregnated compressed hardwood). Decals are in excellent condition. No delamination; no cracks; limbs are straight. Overlays and tips are in great condition. 4 small filled screw holes on the riser where a quiver was attached (see pic). This bow has been partially refinished. No chips, dings or cracks. No crazing. One light 3" stress line on the back of the bow, starting at the stabilizer insert and going down. A few scratches and scuffs here and there. This is still a really nice bow for its age.
