Pitot Static

Re-Certifications

Pitot Static Guys LLC., FAA Certified Repair Station #2PUR923B specializes in performing the Biennial RVSM Pitot/Static Test and Skin Waviness Inspection in accordance with FAR 91.411 & 91.413. We travel almost anywhere in the US to perform our work and offer no hassle quotes to our clients. Just let us know which aircraft needs to be tested and where it is located. We will provide you with a quote of your final cost.. **That's it!** We'll handle the rest. And you can rest assured that your logbook entries will be completed before we leave the aircraft. Let us take the hassle out of moving the aircraft and its crew to a maintenance facility. We'll provide you with an all inclusive quote that has our travel and lodging rolled into it. FAR 91.411 & 91.413 done, at your hangar, between flights, aircraft stays on-line (or as close as it can get).

We'll Come to You!!

The prices listed below are for the Southern California area. The prices for aircraft located in other regions will increase only enough to cover our travel cost. PLEASE CALL FOR DETAILS.

Flat Rate Price List

Hawker HS-125 Series = \$1,900.00 (+500 with stall can inspection)

Challenger 600/604 & Gulfstream II – IV = \$2,000.00
