

## Safety Solvent w/Citrus

HIGH FLASH CLEANER/SOLVENT  
PRODUCT NO.: WH-821

- Highly refined solvent with citrus oils
- No chlorinated solvents, ozone depleting compound (ODC's) or Hazardous Air Pollutants (HAP's)
- High dielectric strength – useful cleaner for electric motors and components
- Very good for Asphalt or Tar Removal
- Low VOC's - less evaporation
- RCRA non-hazardous
- Citrus added for premium cleaning
- High Flash above 140° F

Safety Solvent w/Citrus is a high flash petroleum and citrus blend solvent specifically designed for cleaning metal parts. Use as a safer alternative to low-grade mineral spirits in parts washing applications. Safety Solvent w/Citrus is the highest purity solvent currently available. Pleasant citrus blend scent.

This is a ready-to-use product – NOT to be blended with water.

Applications & Uses	Dilutions	Directions
Degreasing Auto, Brake, & Machinery Parts & Equipment, Asphalt Equipment	Full Strength	Apply product by wiping or spraying onto surface with cloth, immersing, or by pressurized <i>Sure Shot</i> Sprayer. Let stand for several minutes, brush or pressure wash off.

### Suggested Industry Applications:

Aeronautical	Highway Maintenance Machine	Rail
Automotive	Shops	Service Stations
Dealerships	Mining	Waste Management
Construction	Oil Refineries	Asphalt Equipment
Equipment	Printing	
Farming Equipment		
Fleet Operations		

### Specifications:

Appearance	Clear, thin liquid
Odor	Slight citrus/petroleum
pH	N/A
Flashpoint	>140°F
Specific Gravity	.80
VOC	> 90%
DOT Label	PGII Flammable

### General Cautions For Use:

Combustible liquid.  
As with all cleaning agents, keep this product out of the reach of children.

### Container Sizes:

5 Gallon Pail  
55 Gallon Drum  
Not Available in Totes
