

OK Recollections

OF THE DESERT HARASSERS® EDITION 2

A quality 112 page publication, packed with stories of actual events, as experienced and portrayed by the men of No. 450 Squadron RAAF, depicting their active duty served under inhospitable conditions.

The squadron, originally formed on 16 February 1941 in Williamtown, NSW, was to eventually include over 800 personnel from the Australian, British, Canadian, New Zealand and South African Air Forces. Its men were never relieved of their duties from 1941-45, until the end of WWII, when the squadron was disbanded and its members were returned to their country's shores. When the Aussies from No. 450 Squadron who survived the horrors of war, finally arrived, they were told to go home to their loved ones, the best way they knew how, and be prepared to return for either full time *or* reserve duty when notified by the authorities. For some, it was a matter of first hitch-hiking hundreds of miles to get home.

The highs and lows of their service is evident, their fortitude, attitude and stamina is nothing short of remarkable. These young men of No. 450 Squadron RAAF, are famously known as the *Desert Harassers*®.

Edition 2 of 'OK Recollections of the Desert Harassers'® includes the stories from Edition 1, *plus* more stories and photographs with illustrations by Shirley Peters depicting that *Desert Harasser* touch of humour.
