HYPNOTHERAPY

with **clare dune mps, cht, cmt**

Guidance to a state of deep receptivity & expanded awareness where effective change & healing can occur. Develop your own inner resources for resolution & clarity.

You are always in charge of your session. This is not stage hypnosis. You will be amazed to find how rich your inner life really can be.

Imagination Hypnotherapy engages your feelings & senses. Your body/mind is imprinted with an experience it considers as real as any other.

On the reverse side is a menu of sessions that address a variety of life issues. Choose one that resonates with you or let Clare design one that meets your needs.
