

Calvert County Health Department is happy to offer Pfizer vaccines to children 5-11. **5-11 Pediatric Pfizer** is a two-dose series with the second dose at least **21** days after the first; this is currently only approved for ages 5-11. You can read about the vaccine [here](#).

In partnership with Calvert County Public Schools, Calvert County Health Department will conduct clinics on **Thursday, November 11** at Northern High School, Huntingtown High School, Calvert High School, and Patuxent High School. These are available to all school age children in Calvert County, regardless of attendance in public schools.

Clinics will run from 9:30am-1:30pm. You must provide your own transportation to and from the High School clinic. Please allow enough time for check-in, and a recommended 15-minute wait after vaccination. Calvert County ID is *required*.

All children under 18 **must** have a parent/guardian signature on the consent form. Please fill out the information for the child you are signing up, and then *sign your own (parent/guardian) name at the end for consent*. The consenting parent or guardian does **not** have to be the same person bringing the child for their vaccination to a High School based clinic.
