Priority Projects 2020-2021

Hedgesville, WV

Introduction

This tiny village is located on the western portion of Berkeley County, West Virginia. At approximately 80 acres and 300 residents Hedgesville is the region's smallest communities.

Priority Project #1: Downtown Revitalization and Implement "Better Buildings Program

Priority Project #2: Stormwater Management and Flood Reduction

Priority Project #3: StreetScape and ADA Compliance

Introduction

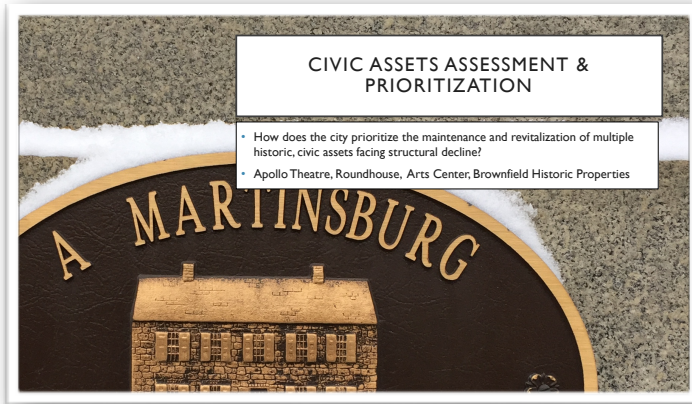

The county seat of Berkeley County, Martinsburg has seen a modest, but steady population growth. A historic downtown core offers investment opportunities, while MARC train service allows for easy access the the Washington DC Metro area.

Priority Project #1: Implement Economic Development Strategies

The City hired a full-time Economic Development Director, a recommendation of a 2013 Strategic Economic Development Plan. The Director has identified priority key policies and projects moving forward in the link below.

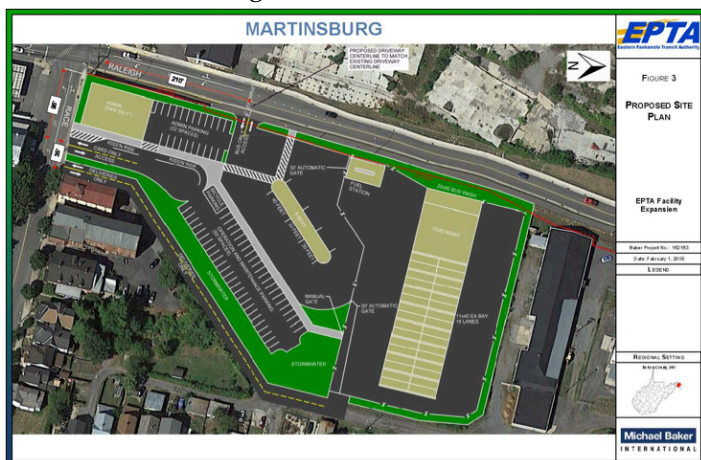

(<http://cityofmartinsburg.org/wp-content/uploads/2019/03/council-presentation-of-edo-priorities.pdf>)

- Assist the city by providing additional capacity to its fledgling Economic Development Office.

Priority Project #2: Reduce Flash Flooding

2018 flooding inundated streets, homes, and businesses within the city. The recently formed Stormwater Management Depart has began working with consultants to identify Green Infrastructure project areas to mitigate future flooding while helping to meet their Municipal Separate Storm Sewer System (MS4) permit requirements and Chesapeake Bay responsibilities. The City is encouraged to work with the Region 9 CB Coordinator to continue to identify funding sources and technical service providers.

Priority Project #2: Martinsburg Transit Center

New administrative facilities, bus bays and transfer center will be built at this downtown location and accommodate current and future ridership growth on public transit.

Priority Project #4: Implement Better Buildings Program
