**COVID/Visiting Update**

Good afternoon from Midway Nursing Home!

This is an important COVID-19 visitation update. Unfortunately, one staff member has tested positive for COVID-19 and out of an abundance of caution, all visitation has been paused at least through Monday until we have completed a full round of testing of our staff and residents. If there are no additional cases, we will resume visitation for those units that are not affected. The residents and families of the unit affected are being notified directly.

It is recommended that all visitors who were on Midway premises in the past two weeks continue to monitor for signs and symptoms of COVID even if you are fully vaccinated. If you are not vaccinated, it is recommended that you consider doing so.

Virtual/Facetime visits are available daily. We highly encourage you to call Social Services or Recreation to schedule a Virtual/Facetime visit with your loved one.

Please stay tuned in to our recorded calls and postings on our website ([www.midwaynursinghome.com](http://www.midwaynursinghome.com)) for updates.

Looking forward to seeing you soon! 😊
