**Subject:** RE: Stony Hollow Potential Odor Update - December 30, 2016

To ensure we provide timely updates to all of our activities that may contribute to potential odors we will provide notice of any known or expected potential odors that may arise as we conduct on site activities. You may receive multiple emails to keep you updated.

### Potential Odor Causing Activities

- A gas line is being repaired which resulted in a brief outage at the rear flare. The repair should be completed this morning.

Please let us know if you have any questions.

Thanks
