Room reservations must be received by 5pm on Sunday, February 2, 2014 to receive this special rate. After this date it will be on a space and rate availability basis.

ABOUT THE SPEAKER

VINCENT O. KOKICH, JR., DMD, MSD

Dr. Kokich Jr. received his dental degree from Tufts University School of Dental Medicine in 1996 and completed a general practice residency at the University of Washington Medical Center in 1997. He remained at the University of Washington for his orthodontic training where he obtained his Masters in Orthodontics in 1999. Since then he has remained on faculty in the Department of Orthodontics as an Affiliate Assistant Professor while maintaining a private practice in Tacoma, Washington. He has received the Charles L. Pincus Research Award for Clinical Research from the American Academy of Esthetic Dentistry and his current research and publications are primarily involved with esthetic, interdisciplinary dentistry. He is a diplomate of the American Board of Orthodontists and a member of both the Angle Society and the American Academy of Esthetic Dentistry. He has written or co-written four book chapters as well as numerous scientific and review articles. Dr. Kokich Jr. lectures nationally and internationally on interdisciplinary dentistry and dental esthetics emphasizing comprehensive treatment planning and the importance of properly sequencing orthodontic, periodontal, and restorative treatment.

- 11:30 am Q & A, Concluding Discussion
- 11:45 am Membership Meeting
- 12:15 pm Adjourn (Board of Directors' Meeting)

*Total 10.25 CE credits available
if all lectures are attended.*

The Interdisciplinary Team: Creating Esthetic Success in the Ortho-Restorative Patient

Today, more and more adults are seeking dental treatment to correct specific anterior esthetic and functional discrepancies. Unfortunately, many of these patients also present with treatment challenges such as injured or avulsed maxillary incisors, severely worn teeth, congenitally missing teeth, and/or altered levels of periodontal attachment. Therefore, treatment planning can often be difficult and typically requires coordination of care between multiple clinicians to achieve the optimal functional and esthetic outcome. Dr. Kokich will discuss strategies for patient evaluation, communication, and sequencing when planning treatment for these comprehensive, interdisciplinary cases.

MCV Ortho Foundation Board of Directors

- Dr. Frank P. Iuorno Jr., President
- Dr. Elizabeth W. Mei, Vice-President
Program Chair 2014
- Dr. Joe Rebellato, Secretary
- Dr. Pamela F. Regimbal, Treasurer
- Dr. Steven J. Lindauer, Executive Secretary
