

CASUAL DINING
The LOG CABIN 1924
Highlands, NC

FRESH THIS WEEK

Menus Printed Daily

At the Log Cabin, we believe in taking advantage of fresh local ingredients from the region's many small farms. Years of experience have also taught us that with today's technology and transportation we can provide our guests with fresh, seasonal products from around the country and around the world. When you dine with us, you will not only find favorites that have been with us since the beginning, but something new and fresh every day.

A Georgia native, Chef Jeremy Skipper's experience includes restaurants from New York to Florida as well as many years here in Highlands.

Spring is Mushroom Season

Highlighted throughout the menu, locally grown and harvested mushrooms. Oyster, shiitake, lion's mane, white trumpet and morels to name a few.
