

**Residents of Summerfield
Township, we need
your input!**

SUMMERFIELD TOWNSHIP
MONROE COUNTY, MICHIGAN

Solar Energy Facilities Informational Workshop

Monday, March 19, 2018

7:00pm

Summerfield Township Hall
26 Saline Street, Petersburg, MI

The solar energy industry has been actively contacting community leaders and property owners throughout Michigan in an effort to secure land for large-scale solar energy projects. In response, Summerfield Township seeks to learn more about solar energy facilities and evaluate their appropriateness within the Township.

The Summerfield Township Board is hosting an informational workshop so that the residents of Summerfield Township can learn more about solar energy facilities. The workshop will be facilitated by the Township's Planning Consultant, Wade Trim. During the workshop, residents will also be asked to provide input on whether such facilities should be allowed within the Township. Please come and share your thoughts!

For more information, please contact the Township Supervisor, John Chandler, at (734) 279-1214 or jchandler@summerfieldtownship.org.
