Meetings...

Meetings are held at the Izaak Walton Club house on the 3rd Tuesday of each month at 7 pm. **PLEASE** join us!

Pumping Update

Since the lake was filled, the pump has been running minimally to keep the lake level within an inch or two of where we want it. Operating the pump at lower speeds saves wear and tear of the equipment and helps with the energy efficiency.

The pump will be shut off for the year October 8. Please plan accordingly for taking boats out of the water.

Invasive Species & Local Boat Registry

Please be on the lookout for any zebra mussels that may have attached to your docks or hoists. Scrapping them off once the water goes down and removing the shells over the winter will help keep your lake shore enjoyable.

The SD GFP Department has issued the local boat registry forms to help us be in compliance with the latest regulations about boat decontamination. See our website for a .pdf of the required forms at <http://www.mccooklakesd.com/invasive-species.html>.

They need to be turned in at Adams Nature preserve to get the sticker and decontamination log book. You'll also find other helpful links on the "Contact us" page, including the state's invasive species website www.sdleastwanted.com. THANK YOU!
