

We recently added Ellie (a bullmastiff puppy) to our family. After extensive research about this breed, we knew she would need professional training due to her ultimate weight and size. We were delighted to find a professional and experienced trainer here in Brenham.

The entire staff at Barking Ranch Pet Resort loved on Ellie as though she was part of their family. Risa Pringle was amazing. Her professionalism and experience are impressive! She not only trained and loved on Ellie; she provided excellent guidance when she felt that Ellie needed to be seen by Dr. Panko. We could tell immediately that she loves her clients and goes the extra mile to see them have success. Ellie loves her! Ellie's results were excellent.

Barking Ranch and its staff are so welcoming. The facility is spotlessly clean. There was none of the covering up of odors that you so often experience at doggy day cares. Clean, Caring, Comfortable...FUN!

#### SAM'S STORY

Sam is our high-energy, highly intelligent, three year old German shorthaired pointer. Sam needed some help with social manners, so we enrolled him in a two-week board/training program at Barking Ranch Pet Resort, Brenham, Texas, with trainer, Risa Pringle. The pet resort is a wonderful facility, and the training Sam received was professional and effective. Risa made sure we were comfortable with the method of instruction she used and even helped us to ensure Sam's continued success. We are very pleased with our decision to send Sam to Barking Ranch Pet Resort.
