Date: October 23, 2014
 Location: URS Training Room,
 Boise, ID
 Duration: 1 hour

Title: SR 530 Emergency Roadway Reconstruction Project
 Speaker: Braydan P. DuRee, PE (GeoEngineers)

Description: The presentation will be on the SR 530 Emergency Roadway Reconstruction design-build project. SR 530 was buried under approximately 20 feet of slide debris from the March 22, 2014 Oso Landslide in Washington State. The landslide claimed the lives of 43 people becoming the most deadly landslide in the United States history. The emergency reconstruction project included reconstructing the roadway over the slide debris in an extremely compressed schedule. The \$20 million project was designed and constructed in 115 days after contract award.

Number	Name	Employer/Organization/Status
1	Paul Michaels	BSU
2	Andy Daleiden	Kittelson & Assoc.
3	Braydan Durree	GeoEngineers
4	JEFF McBRIDE	
5	Paul O'Her	Ret
6	Tim Brewer	IPC
7	Joe Runyan	Intermountain Gas Co.
8	VINCENT PUXLEITNER	COTTONWOOD CONSULTING
9	Lindsay Barretto	Idaho Power
10	Peter Keller	Weder District 1
11	BRENT INGRAM	FHWA
12	LANCE JOHNSON	FHWA
13	Kyle Johnson	US Ecology
14	Jayson Buchholz	Terracotta
15	Seth Olsen	Cartwright
16	JIM BAKER	URS
17	Corbyn Coads	Boise State
