

Professional Qualification Workshop: Water (Pro-Qual: W)

This workshop provides independent verification of a student's qualification as a water technician as required under NFPA Standard 1006. This workshop is not an instructional course, but rather is a place for fully trained rescuers to prove their competency.

Attendees must complete a Taskbook prior to attending the workshop. These can be ordered from the corporate office after the completion of an **SRTA** course.

Standard:	NFPA 1006 Technician (Water)
Prerequisites:	SRTA
Equipment:	Type III- V PFD, water rescue helmet, water shoes, water rescue Gloves, thermal protection (wetsuit/dry suit).
Tuition:	\$200
