▪ **Four Wheel Alignment**

Dans recommends once a year to keep tires and suspension components wearing evenly. Set tire pressure, inspect all steering and suspension components for wear, set front toe-in, caster, camber and rear end toe-in

▪ **Tire Rotation and Balance**

Recommended every 6,000 . Rotate and balance all four tires to help prolong the life of tires.

▪ **Differential and Transfer Case Service**

Drain and replace gear oil in front and rear differentials and transfer case
Recommended every 60,000 miles

▪ **Complete Automatic Transmission Service**

Recommended every 30,000 miles
Add flushing cleaner to transmission, machine flush completely all transmission components, replace with fresh transmission fluid, add transmission conditioner, check entire system for leaks, make any necessary adjustments, and road test vehicle

▪ **Brake Fluid Flush**

Recommended every 30,000 miles
Flush out all old brake fluid. Inspect all brake system components, reservoir, cap, lines, hoses and fittings

▪ **Power Steering Fluid Flush**

Recommended every 30,000 miles
Flush out all existing power steering fluid and replace with fresh fluid. Inspect all components for wear, leaks, and proper operation.

▪ **Cooling System Service and Flush**

Recommended every 30,000 miles
Check all hoses and belts, pressure test system, heater, defroster, and cooling fan operation, flush all coolant from system, fill with new 50/50 mixture, check for leaks, road test vehicle.

▪ **Complete Tune Up**

Vehicle specific mileage intervals
To help prolong the life of your vehicle and keep it running great. Remove and replace all spark plugs and plug wires, replace pcv valve, remove and replace fuel filter, engine air filter and cabin air filter.

• **Fuel Induction Cleaning Service**

Cleans air intake, plenum, injectors, intake valves, and combustion chambers. Remove deposits from EGR passages (intake and exhaust). The ULTIMATE fuel cleaning system
