

Going to Pediatric Possibilities

A story about OT

I am going to go to a place called Pediatric Possibilities.

It is a place to play and to practice new things.

When I get there, I will wait in the lobby. There are books and toys that I can play with while I wait.

There are people called OTs who are like teachers. I will be working with one of the OTs. I can find her picture on the website.

My parents will talk to the lady at the counter and I can play with the toys.

Before I go to play, I will take off my shoes and leave them in the lobby. This is to help keep the play areas clean.

When my OT comes, she will show me where the bathrooms are.

She will also show me where we will be playing.

We might start by drawing or cutting at the table.

Later, we will go into the big gym. This is a super fun room filled with swings and a trampoline.

My OT will have ideas for things we can play. I can do some of my ideas too.

We will stay together to play.

When we are all done playing, my OT will tell me it is time to go. I will go back to the lobby and get my shoes.

I can come back again next time and play more!

Bye OT!
