

Grand Canyon Family Medicine

Financial Agreement

Insurance requirements and coverage are ever changing. We make every effort to be in compliance and to eliminate payment denials before they occur. Your insurance plan may or may not cover routine preventative services (well woman exam, routine physical, well child exam, and annual wellness visits).

We are legally obligated to assign procedure codes based on the services provided to you, whether it is a well woman exam, routine physical, well child exam, annual wellness visit, or a visit to take care of problems or both. **We cannot change the coding later to cause the insurance to pay for a non-covered service.**

Based on the kind of coverage you have, some or all of this cost may have to be billed to you.

Please keep in mind that while the appointment may be just for a physical or just for problems, **if both kinds of services are provided during a visit, then both services may be billed.** If both services are billed, you may be responsible for paying a co-payment, co-insurance or deductible for services rendered, depending on your insurance coverage.

Labs fees are additional fees and are billed out separately. Please inform back office and the phlebotomist if your insurance requires the use of a specific lab other than Sonora Quest or Lab Corp.
