

# Rental Agreement

A bounce house is meant to be fun. It's a good way to keep kids entertained at a party, event, or on a given afternoon. But to keep things light and fun, the appropriate safety and setup practices should be followed at all times.

No food, drink or chewing gum on or around the inflatable. This will avoid a choking risk and keep the unit clean. (Please note if the inflatable is collected in a dirty condition then the person hiring it will incur a cleaning charge of \$50)

Shoes, glasses, jewelry, and badges **MUST** be removed before using the inflatable to avoid injury to peoples using the equipment and harm to the inflatable.

No face paints, party poppers, colored streamers or silly string to be used either on or near the inflatable. (Please note these products will cause damage to the inflatable that cannot be repaired)

No smoking on or around the inflatable.

No barbeques around the inflatable.

Climbing, hanging or sitting on walls is dangerous and must not be allowed.

A responsible Adult must supervise the inflatable at all times.

Ensure children are not pushing, colliding, fighting or behaving in a manner likely to injure or cause distress to others.

No pets, toys or sharp instruments on the inflatable at anytime.

Do not allow anyone to bounce on the front safety step as this is dangerous.

Do not allow anyone to be on the inflatable equipment during inflation or deflation as this is **DANGEROUS**.

Never leave a bounce house unattended, even if you do not believe children are present. Make sure children stay away from the blower.

In the event that the blower stops working, please ensure all users get off the inflatable immediately and calmly. Check your breaker(s) and make sure the blower tube or deflation tube has not come undone or something has not blown onto it and is obstructing the blower. In the event that it overheats, or loses power, switch the blower off at the mains, then switch it back on again 1-2 minutes later.

**\*The inflatable should not be operated if winds exceed 20 mph.**

**\*The inflatable should not be used in rain or lightning condtions.**

Always ensure that the inflatable is not overcrowded, and limit numbers according to the age and size of children using it. Try to avoid large and small children from using it at the same time.

## **Unit Size 13x13**

Children ages 8 or under: 5 to 8 children

Children ages 8 to 12: 4 to 6 children

Teenagers: 3 to 4 people
