

CAREER COACHING AND WORKSHOP FACILITATION

1. Provide individual and small group counseling and workshops (in-person or virtual) on topics related to career readiness, college preparedness, and professional development.
2. Implement guidance activities based on identified students needs and concerns.
3. Consult with students, parents, administrators, teachers, and other professionals to identify and remove barriers that impede student achievement.
4. Provide support during career transitions.
5. Orient youth and young adults by helping to ease the transitions between school and work.
7. Maintain confidentiality at all times, unless “a need to know” situation arises such as potential harm to self or others. During that time, the coach or facilitator will collaboratively work with the appropriate individuals regarding the well-being of the youth or young adult.
