

3800 AST

The 3800 AST is perfect for precise material application on streets, highways and parking areas for dry, prewet and single lane anti-icing.

DRY CAPACITY: 4.0-12.0 CU YD

LIQUID CAPACITY: 490-1,075 GALLONS

PRE-WETTING: VARIABLE FROM 5%-30%

ANTI-ICING: UP TO ONE LANE

GROUND SPEED RELATED

EPOKE PRINCIPLE: AGITATOR & FEED ROLLER

SPREAD WIDTH (DRY OR PRE-WET): UP TO 40 FT

IGLOO 2400

IGLOO Spreaders are available in engine or hydraulic drive versions and in 3 lengths of hoppers (with various capacities) to fit smaller trucks. Perfect for highway supervisors or commercial property contractors and municipal users servicing tight areas.

DRY CAPACITY: 0.8-2.0m3

LIQUID CAPACITY: 90-150 GALLONS

PRE-WETTING: FIXED AT 30%

ANTI-ICING: UP TO ONE LANE

RIBBED CONVEYOR BELT

SPREAD WIDTH: UP TO 20 FT

4900 AST COMBI

The 4900 combination spreader serves three roles on just one chassis. It's a highly capable, large volume anti-icing spreader AND a high capacity dry and prewet material spreader.

DRY CAPACITY: 5.2-12.0 CU YD

LIQUID CAPACITY: 490-2,930 GALLONS

PRE-WETTING: VARIABLE FROM 5%-30%

ANTI-ICING: UP TO TWO LANES AT NORMAL SPREAD

GROUND SPEED RELATED

EPOKE PRINCIPLE: AGITATOR AND FEED ROLLER

SPREAD WIDTH (DRY OR PREWET): UP TO 40 FT

4902 AST COMBI HIGH SPEED

The 4902 combination spreader is similar to the 4900, but has the ability to do high speed (up to 55mph/90km/hr) anti-icing application. The 4902 offers unparalleled versatility for anti-icing from parking lots to side streets with the added capability of high speed coverage on highways or runways.

DRY CAPACITY: 5.2-12.0 CU YD

LIQUID CAPACITY: 490-2,930 GALLONS

PRE-WETTING: VARIABLE FROM 5%-30%

ANTI-ICING: UP TO 3 LANES UP TO 90KM/HR

GROUND SPEED RELATED

EPOKE PRINCIPLE: AGITATOR & FEED ROLLER

SPREAD WIDTH: UP TO 40 FT
