Give Your Customers The Products They Want In The Packages They Need

Andpak Midwest is a quality contract packager servicing the Aerospace, Electronics and Industrial markets. **We specialize** in metal and plastic tube filling, barrier and injection package filling, Syringe filling, Clip-Paks®, Burst-Seal Paks®, dual cartridges and syringes, form fill & seal packages as well as the basic cartridge, bottle, can and jar filling services. If your customer requires color pigmentation, UV tracer or specific filler added to the material they have chosen, we can provide that service as well.

✓ No minimum batch size required

We custom package to your needs. There is no job too small or TOO LARGE!

✓ 120 years of combined experience

Our friendly & highly skilled quality oriented staff are trained to give full attention to your needs with the highest quality of service.

✓ Repackaging solution provider

Authorized repackager for small and large manufacturers, distributors & end users.

✓ AS9100D:2016 | ISO9001:2015

We repackage to high quality standards & comply with the Globally Harmonized System (GHS) of Classification & Labeling of Chemicals.
