### D.R.A. WINS L'SHORE SWIM CHAMPIONSHIPS

A total of twenty-six (26) new records were established at Dorval's Ballantyne Park Pool last Saturday when seven (7) Lakeshore Clubs met for the Third Annual Lakeshore Swimming and Diving Championships.

The large crowd in attendance were treated to a thrilling and varied programme which saw the Dorval Recreation Association team rack up a total of 20 First Places to win the R. John Pratt Trophy, with a total of 139½ points. Lakeshore Swimming Club from Pointe Claire gave the D.R.A. team some anxious moments with some steady gains during the final events and came in a good second with a total of 118 points, followed by Lakeside Heights 58½ points; Beaconsfield 51 points; Valois 30 points; Lord Reading Yacht Club 25 points; Cedar Park Heights 7 points.

Beaconsfield, Lord Reading and Cedar Park Heights were competing for the first time and should provide strong entries next year. Divers from Beaconsfield won in both the girls and boys diving events and received the Lachine-Dorval Kinsmen and Kinettes Diving Trophies.

Results of all events will be found below and the rate at which records were broken is a clear indication of the progress and improvement of the swimmers from all clubs. The interest in competitive swimming and diving is at a high pitch on the Lakeshore and the next logical step should be the acquisition of an indoor pool in order to bring our swimmers up to national standards. This item is high on the agenda for the Fall meeting of the Association of Lakeshore Pools and it is hoped that a solution will be found for this problem.

THIRD ANNUAL LAKESHORE SWIMMING CHAMPIONSHIPS HELD AT BALLANTYNE PARK POOL, SATURDAY, AUGUST 20, 1960

#### FIND POINTS:

Dorval Recreation Assoc. - 139½  
Lakeshore Swimming - 118  
Lakeside Hgts. Ctt. Assoc. - 58½

### Detailed Report Expected Soon

Police and Fire Chief A.R. Noel has been suspended by Mayor and Council of The City of Dorval pending full inquiry into what might be considered, for the time being, a severe breach of conduct on the part of Mr. Noel.

The action was taken on motion of Police and Fire Commissioner Ald. George C. Goodale, with Ald. Hazel Ballantyne as seconder, at last Friday's Council meeting, and came in the wake of a dispute over the purchase of fire equipment for the City.

According to policy established by City Council, a contract had been awarded to the firm of Pierre Thibault Limited after that concern had submitted the lowest acceptable tender for the material and equipment involved. Following the acceptance of the tender in question, it is alleged that Chief Noel made representations to Council stating that Pierre Thibault Limited "did or were using" obsolete materials in the construction of fire equipment. Following the charge laid by Mr. Noel, Aldermen Goodale, Braddell and Dore visited the Thibault plant in Pierreville to check the Fire Director's allegations, and, it is alleged, found the Noel assertions entirely unfounded. On returning from their visit to Pierreville the aldermen reported their findings to Council, and Council, on July 18, confirmed the award of the fire equipment contract to Pierre Thibault Limited.

At a later date, it is reported, Chief Noel contacted by telephone the general manager of the Canadian Underwriters Association, W.W. Owen, and the director of engineering for that association, J.M. Price, to complain that Council had been influenced in the awarding of the contract by J.J. Amyot, an officer of the Canadian Underwriters Association. Mr. Amyot appeared last Friday before Council and repudiated Chief Noel's charges.

It has therefore been decided by Council to hold a complete investigation into the matter. "Our Fire and Police Director will get every chance to clear himself of the charges involved," said Mayor Pratt. "But we feel that the best interests of the citizens of Dorval will be served by a complete probe, and furthermore it is in everybody's best interests that proper publicity be given this investigation - both in the suburban and metropolitan press. There has never been a hint of scandal connected with this administration," the Mayor continued, "and we intend to push this investigation to the point where there can be no possible doubt in anyone's mind."

Captain Pierre Gariety has been appointed as Acting Police and Fire Director and a certified extract of the minutes, concerning Chief Noel's suspension, has been ordered posted in the Police and Fire departments.

The inquiry will proceed without delay, and a report made to Council at the earliest possible date.

### Strathmore Wins Senior Girls Softball

Strathmore Senior Girls Softball team defeated Dorval East Senior Girls in a best 2 out of 3 series. Mrs. D. Moreman is Manager, and Mr. Denis Aucoin, Coach, Mr. Stan Woods, Assistant Coach. Members of this winning team - Marilyn Westcott, Michelene Hainault, Linda Hubbard, Penny, Jane, and Pat Lambrecht, Judy Cox, Gail Harris, Susan Matthews, Jane Mellani, Diane Duckworth, Carole Moreman. Managers and Coaches

have put a lot of time into training the girls and doing the management work and deserve much credit for the success of this new league series. Competition was keen, spectator support enthusiastic. Winners and losers alike deserve congratulations.

### 5,000,000 Gals of Sewage Dumped Daily

The Lake St. Louis Anglers Inc. in furthering their argument against water pollution have requested that we print the following item:-

Jacques Benoit, Consulting Engineer told the Lake St. Louis Kiwanis Club, during National Health Week in January, that five million gallons of raw sewage poured into Lake St. Louis daily, from Ste. Anne de Bellevue, Pointe Claire and Dorval, is the cause of 90 per cent of the pollution of the north shore of Lake St. Louis, west of Montreal. The three communities named have a total of 45,000 residents, and the north shore of the lake, from Ste. Anne to Lachine, is so polluted that bathers have been warned away for several years.

Mr. Benoit said that Beaconsfield is the only Lakeshore community which does not contribute to pollution, because its sewage is clarified and disinfected prior to discharge. He said the solution was the construction of sewage treatment plants in the offending towns. "The cost of debt retirement over a 25-year period, and including cost of operation, is about \$3.50 per capita per annum - not too unreasonable a price to pay for removal of the main source of pollution."

### Pedestrian Crossing Becomes Reality

The long-awaited Pine Beach pedestrian crossing will soon become a reality. It will be recalled that the closing of this particular footpath occasioned a great hue and cry last November.

An order from the Board of Transport Commissioners has authorized a pedestrian crossing at Pine Beach with cost to be paid by the C.P.R. over their railroad tracks and by the City of Dorval over the C.N.R. tracks.

### Little League Go Into Playoffs

The Dodgers lead the League, Red Sox rank second and the Giants eased into third place in an exciting close finish, 8 - 7 game against the Senators last Monday night. The Giants meet the Red Sox at 6:30 p.m., St. Charles Park, Thursday, August 25. The Senators play the Dodgers the same night at Courtland Park in the first of the semi-final games.

## A SERIOUS MATTER

The suspension or replacement of police chiefs at regular intervals in the various municipalities on and around the Island of Montreal has become more or less accepted as a normal occurrence by most newspaper readers. However, we are sure that the recent suspension of Chief Noel for an alleged 'breach of conduct' has come as a distinct shock to the citizens of Dorval.

Chief Noel has served Dorval efficiently and conscientiously for the past thirteen years and the many letters inscribed in past minutes of City Council are mute testimony to his own fine efforts and to the men under his direction.

This, it is granted, does not necessarily lighten the gravity of the offence attributed to him by City Council who, it is noted, were unanimous in taking the serious decision they did. In effect, they feel their integrity and that of a senior official of the Canadian Underwriters' Association has been impuned by a public servant of the city in a highly unethical manner.

Whether or not Council's action was completely justified will not be fully known until the report of the investigating committee is completed.

The sooner this report is finalized and made public the better. Any long delay in documenting the facts could result in speculation harmful to both parties in this dispute.

**APPOINTMENT of E.J. ("Fitz") Fitzpatrick to the position of manager of the newly-formed employee relations department of BP Canada Limited has been announced by T. Graeme McLintock, executive vice-president. Mr. Fitzpatrick will coordinate all personnel activities for the organization.**  
*A native of Ningo, Man., Mr. Fitzpatrick lives at 67 Dahlia Avenue in Dorval and is an elder of Dorval United Church. He is also superintendent of Intermediate Church School.*  
*During World War II he served with both the Canadian and British armed forces and was attached for a while to the "Canloan" Army group. He saw action in Western Europe, was twice wounded, and attained the rank of lieutenant.* (MAGNUM)

own Province in this respect. In Ontario the Province has not only admitted its responsibility but has done something about it.

Incidentally, I am informed that experts have found that the majority of the pollution of local waters does not originate with the City of Dorval in any case. Why do you therefore pick on the City of Dorval alone? The City of Dorval has already gone on record that it is willing to undertake this burden, if other municipalities,

such as Pointe Claire, Lachine, LaSalle, Montreal etc. do likewise.

I presume you will admit that it is only fair that you also approach these other municipalities, and believe me I shall be very interested in hearing their answer to your enquiries. If they are ready to proceed, so is Dorval.

Signed: R. John Pratt, M.P., Mayor of the City of Dorval"

## Letters To The Editor

Editor, Dorval Reporter,

Dear Sir:

Saturday's issue of the Montreal Star carried a thought provoking letter, in "Letters to the Editor". It was signed "Ragweed Sufferer" and we quote,

"In spite of a program of monthly inspections I was bothered by ragweed more last year than in 1955. This would indicate that in Lachine-Dorval area the count was even higher than in 1955 and that the City of Montreal would have a much larger count had its parks department not carried on a program of spraying."

Ragweed Sufferer further states "I am convinced many people do not know what ragweed looks like and consequently allow it to grow on their properties."

Frankly we know what ragweed

looks like and so we carried out a little investigation of our own. Armed with a sample conveniently picked in our own yard, we started really looking around. The results were startling. If our part of Dorval is indicative of the conditions in the rest of our city, Ragweed Sufferer has a grim season ahead of him!

We found ragweed in open ditches in front of homes, along driveways, in hedges, in flower gardens, in open lots and particularly in our municipal playground. We are all guilty of fostering its growth, with our town properties the greatest offenders.

Is this another condition which like our problem of pollution, we acknowledge and yet do little about Ragweed can be controlled and this requires positive action, lead by our city council.

Their action should begin with public education of Ragweed identification, spraying of properties directly their responsibility and setting aside a day, if necessary, when all of us do our share to eradicate this weed and so help our fellow citizens.

"Sympathizer"

Chairman of the Anti-Pollution Committee,  
Lake St. Louis Angler Inc.,  
3051 St. Joseph Street,  
LACHINE, Que.

Dear Mr. McHugh,

Thank you for your letter of August 13th, in regard to the subject of water pollution.

There can be no doubt of the responsibility of a municipality in the question of handling the disposal of its own sewage, but this question must be considered also in the light of other factors which affect it. One of these is the fact that municipal finances are based on real estate which is rapidly becoming an insufficient basis on which a modern municipality is called on to operate. If the money is spent on sewage disposal it merely means that other important pro-

jects have to be delayed or abandoned.

Secondly, as I have pointed out many times, most citizens object to spending money for a service which will mostly benefit the citizens of other municipalities, unless the citizens of other municipalities are willing to undertake similar expenses on their behalf. In other words, I firmly believe most municipalities are willing to undertake most, if not all, of the burden of building sewage disposal plants if their neighbours can be persuaded or ordered to do the same. Persuasion seems to have gotten us nowhere and it is obviously up to the Provincial Government to order all offending towns to treat their sewage. Similarly, it is up to the Federal Government to coordinate the efforts of the various provinces as our waters flow from one province to another.

As far as the division of financing is concerned, the United States has set an example by which the Federal Government provides 30% of the cost of such works. The Province of Ontario has also set an example by organizing and financing these necessary works. The Province of Quebec, both Liberal and Union National Parties, has also promised to do something about water pollution. The City of Dorval has actually given first reading to a bill some time ago to carry its share of such work, but at the present time, we, like other municipalities, are waiting for the leadership that should be forthcoming from the Province. You must not forget that municipalities are all merely the creatures of the Province and primarily the responsibility of such a matter as water pollution therefore rests absolutely at the door of the provincial governments of this country. Any other assistance is purely contributory according to the share of responsibility involved.

You might ask Dr. Gustave Prevost why the Province of Ontario has progressed so far ahead of our

## Local Resident Financially "Adopts" Chinese Girl in Hong Kong

Mr. W. Graham Crowley, 71 Lagace Avenue, Dorval, has financially "adopted" Cheung Oi Lin, and 11-year-old Chinese girl now living in Hong Kong, through Foster Parents' Plan, Inc., P.O. Box 65, Station B, Montreal. The Foster Parents have promised to contribute \$15 a month toward the child's support for at least one year.

Foster Parents' Plan, which has rehabilitated more than 77,000 children on a personal basis since its founding in 1937, is now helping more than 17,000 youngsters in Greece, Italy, South Korea, France, Belgium, Viet Nam and Hong Kong. Over the past twenty-three years, more than 600,000 individuals and groups in Canada and the United States have helped needy children overseas through Foster Parents' Plan.

"We are indeed grateful to Mr. Crowley for giving Oi Lin this wonderful gift of hope and help," declared Miss Gloria C. Matthews, Executive Director of Foster Parents' Plan, "and we prayerfully hope that many others who read this will also extend a helping hand to a distressed child. We shall be happy to send full information on how to become a Foster Parent to a child in Europe, South Korea, Viet Nam or Hong Kong to any individual, school or group writing to Foster Parents' Plan, P.O. Box

65, Station B, Montreal," Miss Matthews added.

Foster Parents' Plan is a non-profit, non-propaganda, non-sectarian, independent, government approved relief organization which provides children who are orphaned, distressed, or otherwise made destitute with the care, education, and moral support they need. "Adoption" through Plan is financial, not legal. The Foster Parent promises to contribute \$15 monthly for at least one year. Of this sum, the child receives \$8 each month as an outright cash grant. The remainder is used for periodic food and new clothing packages, translations of letters, medical services and education. Because each child is treated as an individual, any special needs of the child or his family are taken care of by Plan from its General Fund. This fund is made up of contributions from the public.

To encourage a warm, personal relationship between the Foster Parent and "his child", the Foster Parent receives a history of the child and a photograph, and correspondence through the Plan office is translated both ways. This exchange bridges the gap between Foster Parent and child and gives the youngster the feeling of security and love he needs.

Oi Lin is one of many thousands of children forced to endure a life of incredible squalor. She lives in one cubicle of a densely packed tenement. Her parents have chosen to struggle for survival in Hong Kong rather than

live under Communism. Oi Lin's father was a man of property in China. He owned land and several businesses. His first wife died and he had to leave 6 children in China with the paternal grandmother. Since they left China, the family has received word that all of their relatives have to work on the land in the mainland. It was in 1949, after Communist forces had taken over the mainland of China that Oi Lin's parents fled to Hong Kong from Canton.

## Sunday Evening Drive-in Service

The last Open-Air Drive-in Church Service for this season at the Dorval Gardens Shopping Centre will be held August 28th at 7:30 p.m., when the Rev. Chas. C. Cochrane, B.A., B.D., Minister of Melville Presbyterian Church in Westmount, will be the preacher.

These open-air services have been sponsored by the Presbytery of Montreal of the Presbyterian Church in Canada, and have been well attended this season. An electric organ has been provided through the courtesy of Willis & Company, and ample sound equipment is installed. Persons may remain in their cars while participating in the service of worship, which is held rain or shine.

## Dorval Swim Championships Aug. 27

The Dorval Recreation Association announces that the 2ND Annual City of Dorval Swimming and Diving Championship Meet will be held this Saturday, August 27th, at Ballantyne Park Pool starting at 1:30 p.m.

Five (5) teams, representing the major Community Associations in Dorval, will be competing for the City of Dorval trophy, won last year by Strathmore Community Association, and the Percy Walters Memorial Trophy for high individual aggregate, won last year by Fred Hill.

Pool time, for the selection of team members, has been allocated to the Strathmore Community Association at Surrey Gardens Pool; to Courtland Park and Pine Beach Community Associations at Walters Park Pool; to Windsor Gardens and Dorval East Recreation Associations at Ballantyne Park Pool.

All Dorval residents, both D.R.A. members and non-members, are eligible to compete in this meet and interested persons should contact their respective Associations and arrange for a try-out before meet time.

Last year, this City-wide Meet

generated tremendous interest and played a large part in the City's decision to build the two new pools this year. A big turn-out of enthusiastic supporters is expected and the seats at Ballantyne Pool, which have hardly had time to cool from the Olympic Team visit on August 15th and the Lakeshore Championships on August 20th, will be rocking for the last time this season. See you Saturday!

## Dorval Cribbage

At the General Meeting, held recently at the Richmond Hotel, the Executive for the 1960-61 season were unanimously elected back into office. The Executive are as follows: W.G. Harker, President; Mr. S. LeBlanc, Vice-President; Mr. R. Blake, Secretary and Mr. D. Russell, Treasurer.

Since this year will be the Dorval Cribbage Club's 30th year in operation, with several of the Original Members still playing, a big year is being planned by your Executive, who are even now making plans. Watch this paper for the date and place of the first night's play.

For the life you like to live...

*A livelier Lager!*

Water sports win great Quebec each day — so Canadian. This bright result of unhurried, natural it's a smooth, friendly lively flavour that suits mood of today's Quebec to your leisure with the new taste of Molson Cu.

# IN FOCUS

By K. M.

## Lay That Iron Down, Lady, Clothing Care Experts Warn

When a garment needs pressing, it's usually dirty, too. Pressing dirty garments can damage the fibers. Microscopic studies of typical soil, such as dust and sand, show each particle has many jagged edges. These rub against the fibers. If you press them into the cloth, you aid their cutting

action and embed them further. The longer the soil remains in the fabric, the more damage it will do. Extensive research has scotched the old wives' tale that drycleaning wears out clothes. Abrasion in wear is what does that. For instance, many trousers wear out first at the cuff or on the seat—where abrasion is greatest. They don't wear out first on the inside of the lower leg, though this part is dry-cleaned and dressed just as much

**PERTINENT COMMENT ON CURRENT EVENTS** came in a letter from a resident of Claude Avenue and speaks for itself: Dear K.M. "Reference 'In Focus,' Aug. 11, 1960. Regarding the recent 7:30 p.m. episode of a 2 year old running 'stark naked' on Claude Avenue, I would like to reply, 'Who can blame me? I was frightened out of my pyjamas by a jet passing overhead.'" signed D.J.L. (two years old).  
Thank you D.J.L. two years old! There is obviously a fortune to be had for a clever designer of Jet proof pyjamas!

**LOST AND PARTIALLY FOUND.** Seventeen year old Carmen de Labouriere cashed a \$100 cheque for her mother last Thursday, Aug. 18. As she was on the way home on her bicycle she noticed that the money had slipped from her wallet and was being scattered along the Lakeshore Road near Lilac Avenue. Before she could retrieve it, two small boys made off with some of it. The wind sent other bills out of reach before she could get through traffic. Three boys have turned into Police #59 of the money and their honesty is commended. (Their names are not reported here as police would not release the names of the boys until the close of the investigation). A loss of money is hard to take these days, and the family is hoping that the rest of the money will be discovered and turned in.

**THE CASE OF THE CATS, WRIGHT CRESCENT AREA.** Some phone calls have been received concerning the item on the roaming cats and irate property owners which appeared in this column last week. Three cats have been found dead in this neighbourhood and poisoning is suspected. I hasten first of all to state that the complaint which was described as coming to the "one of these days stage" did not come from a person inclined to go out and destroy pets. He is more inclined to get mad enough to call the police, or indulge in a kick aimed at a disappearing canine. It is more regrettable that pets have been destroyed and the column in no way supports such drastic action.

In one family there was a broken hearted little girl who could not understand the death of her pet. This was a much travelled kitten which had been brought originally from Turkey, and was well known in the neighbourhood. He even had his telephone number on his collar so that if he disturbed anyone his mistress could be called. The case for cats as mice killers and clean animals was strongly stated by cat owners. It may be that the animals are getting some spoiled food in this hot weather from garbage cans, and that no one is to be blamed for the recent happenings. It is to be hoped that a reasonable solution to the question of owning pets can be reached and that the mystery of the deaths of cats will be cleared up.

**WHEN YOU HAVE TO GO, you have to go, even ON A JET.** Passengers who were taken to the Dorval Airport for an early morning jet flight recently were disappointed when their flight was announced as "delayed" on account of equipment, for one hour. The plane took off later, fifty minutes behind schedule. A conversation overheard by Dorval resident revealed the cause of the delay — the toilets would not flush in the tourist section. One of the ironic twists of our age — to arrive at the Jet Age and then to be held back — by plumbing troubles!

**HERE AND THERE.** Did a D.R.A. Life Guard get a ticket for parking his car in the wrong place? . . . It happens to other people too — a sign at the corner of Green Circle and Church Street reads Church Street . . . A big new sign P.B.C.A. in front of the Pine Beach Community Centre stands in a stone walled base . . . Deputy Returning Officers from local polls, recent Provincial elections, are complaining that they were not reimbursed for the \$1.00 they spent to send in forms and reports by registered mail, and also about the length of time it took to receive cheques . . . Violet Crescent residents complaining about the cars parked on the street during special events at Ballantyne Pool. The underpass from the former Elmridge Golf Club under the Metropolitan Boulevard near Pine Beach is filled with water and the steps barred by a single small board . . . Myrtle Cook's comment from Rome that the Canadians might substitute red trimmed white sports shirts for blazers in the Olympic was of interest in the dis-fasion show. . . . Recently they took

the provincial authorities to protest against the continued pollution of Lake St. Louis. They now inform me that they have received an answer from the Director of the Quebec Water Pollution Control Commission informing them that each city council must absorb the entire cost of its own sewage plants. This attitude seems to be at variance with the declarations of both National

**SIDELINES — LAKESHORE SP.** The show stopped a few times while the C.N.R. train was by but Frank Pouquet reminded spectators that the C.N.R. had supplied flags for pool celebrations. . . . Lakeshore swim meets brought rain in 1958, 1959, 1960 . . . Spectators complimented on being a well disciplined crowd . . . A lady fanned herself with a cardboard fan with the words printed on it, "I'm a CF60 Fan" . . . Children waved D.R.A. pennants . . . A silver collection was taken up in the only containers at hand, two gallon water pails, and there was sufficient tinkle of silver against tin to defray expenses (helped by Pepsi concessions) . . . Rosemarie Gauthier who won first place in the Senior Girls Breast Stroke event was a one-time top ranking swimmer in Germany . . . Some age group records only seconds off Provincial Records . . . St. John's Ambulance corpsman on hand for emergencies, a welcome visitor . . . The crowd had fun with the clowns, ladder bicycle and all . . . And Mr. Paquin wins the award as D.R.A. cheerleaders of 1960.

Last week CFOX listeners heard Gordon Sinclair put in a birthday greeting for a Dorval boy, Kenny Thorpe, in hospital for his eleventh birthday, August 18. Now children do have to be hospitalized once in a while, but Ken has had more than his share of trouble in eleven years. Accidental swallowing of pills when he was two years of age, a severe burn, plastic surgery, severe allergies have caused him long term hospital stays. Mononucleosis, complicated by a lung infection is the worry at the moment.  
To top off these troubles recent allergy tests have shown up a strong reaction to ragweed. This boy, who is an active, normally fun-loving youngster, who wanted more than anything to go to Y. Day Camp this summer, deserves any help we can give him when he is well enough to come home. His case underlines the obligation we have to join actively in the campaign to eradicate ragweed. For this one boy we can do our bit and we would help so many. (Drop Ken Thorpe, Montreal Children's Hospital, a note to say you have joined the campaign).

## Niagara Grape and Wine Festival

One of the feature attractions of the annual Niagara Grape and Wine Festival at St. Catharines, Ont., is the selection of a "Grape King".

The Festival date has been set for Saturday, October 1st, and the competitions for Grape Queen and Grape King are in full swing.

Selection of a Grape King is made by fieldmen from the Vineland Experimental Station who judge grower-contestants on the basis of soil management, vine vigor, general appearance of vineyard, insect and disease control. Contestants must have a commercial vineyard of five acres or more, and be registered with the Festival Committee. The winner of the contest receives a \$100 cash award as well as a membership in the exclusive order "Knight of the Vine". Grant Laundry, Festival Committee Chairman, reports brisk response for entry applications.

The 1960 Grape & Wine Festival is the 9th annual event to be held in St. Catharines, and it comes at the end of the grape harvest in the peninsula. Over 50,000 tons of red and white grapes are grown in Canada's grape-growing area, stretching from Hamilton to Niagara. Many of these grapes are used to produce fine Canadian table wines and champagne.

A big crop of grapes is expected this year following an ideal growing season, according to Ontario Department of Agriculture officials. The 1960 grape crop is expected to approximate 52,000 tons.

UNDER NEW MANAGEMENT

**Pine Beach Hotel**  
LAKESHORE DRIVE AT PINE BEACH

His Worship Mayor Pratt of Dorval starts the "Back to School" Brake Safety Check Campaign off by having his car brake linings checked and brakes adjusted at John Bungartz Shell Service on Cardinal and Pine Beach. The Campaign is a fund raising venture by the Optimist Club of Lake St. Louis. Left to right in the picture are Club President Dave Clendinning; Vice President Charlie Cresswell; Mayor John Pratt and John Bungartz.

## Optimists Sponsor Brake Safety Check Campaign

The Lake St. Louis Optimist Club instead of their usual Car-Wash and Gas-A-Rama have come up with something new in the way of fund raising. The Club this year is putting on an intensive Brake Safety check and adjustment campaign. Advertising ties the Safety Check in with a "Back to School" theme. Children will soon be back from the summer cottages and before long the streets and playgrounds will soon be overflowing with youngsters. No matter how slow you drive, how carefully you watch, you can't stop in time with faulty brakes. A very thoughtful slogan on the Club's Posters reads,

"Children will dare, So driver beware".

Here's how the campaign works. Poster ads and service cards request that motorists drive into their local service station and ask the mechanic on duty to Safety Check his brakes and adjust them. The Safety Check and Adjustment cost only two dollars. One dollar goes to the Service Station and one dollar along with your signed service card goes into the Optimist Container displayed at most stations: The signed service card entitles the motorist to a chance on a \$20,000 lucky draw. Funds obtained will

be used by the Club in their Boys' Work Program. The Campaign is scheduled to start August 25th and continue for approximately 3 weeks.

Ways & Means Vice-President Charlie Cresswell put it this way - Here's a chance to be safe not sorry. A chance to help the Optimist Club of Lake St. Louis. A chance to be safe on the road and maybe \$20.00 richer. President Dave Clendinning states that virtually all Service Stations on the Lakeshore from Dorval to Beaurepaire have joined in the plan to make roads safer on back-to-school day. Plan now to have your brakes checked and remember this warning - "Children will dare, so driver beware, we haven't a child to spare".

## Lake St. Louis Anglers News C. Shelly

**ROWING SECTION:** Our rowers went to Ottawa last week-end to participate in an Invitation Regatta and rendered a very good account of themselves. Rowing conditions were not ideal owing to gusty winds but most races were rowed in good time. This pretty well closes out the competition rowing season for our rowers, however, there will still be considerable rowing activity around the club till the middle of September.

**FISHING REPORT:** Word has just been received that Carl Estey of Lachine caught a dore in the 7lb class recently. Carl is the one who caught a 10 lb dore not too long ago. We don't know how he does it, maybe it is some special bait or lure that is responsible for such fishing.

Bass fishing is quite good according to reports received with borie minnows being the favourite bait. The perch catch has been plentiful but not spectacular as far as size is concerned. Pike fishing this year has been relatively poor, with muskie fishing no better.

**ENTERTAINMENT:** Don't forget the date of our next dance September 3rd. The Stan Morris Orchestra will entertain.

**MEMBERSHIP:** Will you people holding membership books please contact G. Dow, at DO 5-0626 or return same with any money to him c/o Lake St. Louis Anglers Inc., 3051 St. Joseph St., Lachine, P.Q.

**BIG FISH REPORT:** Some of the big fish entered to date are Muskie

- 22 lbs 2 oz., Dore - 10 lbs 12 oz., Pike - 8 lbs 12 oz., and 7 lbs 8 oz., Bass - 21 lbs 14 oz., Perch - 16 oz., and 14 oz. Outside of Lake St. Louis - Grey Trout - 13 lbs 13 oz., Great Northern Pike - 21 lbs.

## Civic Affairs Bulletin

(Radio Report by Mayor John Pratt on CFOX last Sunday.)

One of the contestants in the recent Miss Canada Pageant was a local Dorval girl, Gail Allard, who brought additional glory to her City by winning the top talent award. Miss Allard's talent is actually aviation, but as she could hardly display her ability in this field for the judges, she, therefore, had to limit herself to a short speech on her hobby. In effect, this really means that she also won on the basis of her ability as a public speaker, and I would like to take this opportunity of congratulating her on behalf of the City of Dorval.

While we are on the subject of congratulations, I would also like to extend them to the Dorval Recreation Association for the marvelous job they are doing in organizing recreation for the citizens of Dorval. This Association has been of immeasurable help to the municipal council in initiating three swimming pools and a golf course, not to mention many other projects. Last week they brought the Olympic swimming and diving team to Ballantyne Park, where everyone was completely amazed at the thousands of people who clamored for admittance to this most successful event. I am sure

that of the thousands of enthusiastic people that watched these expert swimmers and divers, there will be many who will be inspired to strive for similar perfection and who may some day be proud members of an Olympic team themselves.

I was particularly impressed by the youthful enthusiasm and sportsmanship displayed by the members of the Olympic team. They seemed to be enjoying themselves hugely and were certainly a most admirable group to set an example in behaviour for the youth of our City.

Incidentally, I was very surprised to hear that the provincial authorities insist on collecting an amusement tax on the cost of our memberships of families who use the D. R. A. swimming pools. We have had to build three swimming pools because Lake St. Louis is too dangerous to swim in, partly through lack of provincial action. Under the circumstances, it hardly seems fair for the Province, therefore, to extract an "amusement" tax from people who are merely trying to teach their children to swim safely in clean water. Something is wrong somewhere and I am sure that the Province of Quebec will be only too glad to change this state of affairs as soon as it is brought to their attention, which I intend to do at the earliest opportunity.

## COROS Y DANZAS DE ESPANA

The first performance of Spanish Songs and Folk Dances by a troupe of about fifty young people was tumultuously received by a packed house at the Comedie Canadienne on Friday evening.

The program was divided into three parts, dances from the provinces performed in the costumes and to the music indigenous to the province concerned, a group of folk songs and more dances. Generally the performers showed the need of rehearsal with the stage crew, but what they lacked in split-second polish they made up in verve, enthusiasm and bright costuming. The sword dancers with their scarlet and white costumes who supported a young woman on their crossed swords were exciting to watch. Graceful and pretty while they formed and reformed swift and intricate patterns. Delightful was Barado with the hobby horse, the red and green scissora-like gadgets which two girls manipulated rhythmically, and the climax in which three of the dancers in turn stepped lightly into a tumbler filled with wine. Quite a feat, one might say. One would like to dwell on the beauty of the Spanish shawls, on the grace of the flounces, but most of all were we impressed by the twenty or so backdrops which depicted in clear colours all the brilliance, the hot sun drenched country which comes to mind when one thinks of Spain.

Mr. R. was intrigued by the musicians who accompanied the dancers while lounging informally on the side of the stage. Particularly entrancing was the man who played a small flute-like instrument with his left hand and kept up a hot rhythm with a drum with his right.

Infectious too was the warm enthusiasm of the outsized Spanish lady sitting next to me. How she laughed, hummed, sang and shouted "Alonh!" as the mood seized her. Well, how would we feel if we were watching "H.M.S. Pinafore" being performed in Spain?

## CHILDREN'S FILM FESTIVAL -- A DISAPPOINTMENT

Ever a beaver eager for culture for the younger Scots, I made a hot trip into town last Wednesday morning to take them to see "Ali and the Camel," the Children's program of the Montreal International Film Festival. Advertised

## E/Z Players Change Production Plans

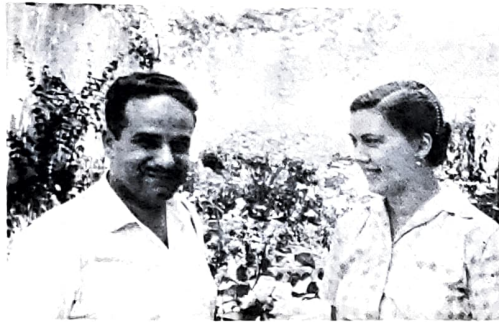

The E/Z Players of Greater Montreal regretfully announce that their forthcoming production of Oscar Wilde's, "The Picture of Dorian Gray", adapted by Constance Cox, will not be presented in the Lachine High School Auditorium as originally planned.

The Auditorium has been converted into a classroom, making it impossible to use the stage facilities when required and forcing the group to take the production to a new location.

Consequently, the Canadian Stage Premiere of this classic play will be staged at the Gesu Hall, 1200 Bleury Street in Montreal. There will be evening performanc-

es at 8:30 p. m. on September 15, 16 and 17, with a matinee performance at 2:30 p. m. on September 17. "The Picture of Dorian Gray" will be produced for the E/Z Players of Greater Montreal by Ralph J. England and directed by John McFadyen and Ralph England.

Members of the cast include John Dapery as Dorian Gray, Laurence Evershed as Lord Henry Wotton, Ursula Dapery as Lady Gwendolin Wotton with Valda Dalton, Claude MacDonald, John McFadyen, Carole Zorro, Russ Forest, Sheila Rogers, Burt Rosen, Edna Humbles, John Mason, Toivo Pyykko, Sandra York and Robert d'Estere.

## The Masellas of Dorval at Home in the World of Music

The Montreal Festival is out on the periphery to many in this Lakeshore Community, but to a young couple at home on Allard Avenue it means extra rehearsals, more summer work than usual and, in the absence of a trusted housekeeper, taking turns in the care of a three year old son.

"Rafael will probably take John to his rehearsal on Saturday," Dorothy Weldon told me. "He sits quietly; he seems to like to listen."

Dorothy Weldon, Harpist and Rafael Masella, Clarinetist met through the world of music. She entered that world through a contest in musical aptitude for young children which drew her to the attention of Wilfrid Pelletier. When the new provincial Conservatory was founded, it bought a harp and Dr. Pelletier was happy to find in Dorothy Weldon an interested and apt pupil. She is now a teacher of the harp at the Conservatory, and is on the staff in the Faculty of Music at McGill. "But so far no pupils there," she laughs quietly. "The harp is a very expensive instrument."

Do you remember the radio drama "Laura Limited"? It was in playing the background music for this show that Dorothy did her first professional work. The organist worked out the original sketch of the music and later a nod or a quirk of the eyebrow was enough to cue the harpist as to the proper chords to play for a dramatic crisis. And there were plenty of these on "Laura Limited." "It was fun, Dorothy recalls, "because of the improvisation." Dorothy and her harp furnished the background music for a Sunday program "The Way of the Spirit", a Bible Drama series. The original organ and harp combin-

ation was later replaced by a string quartet under Neal Choatam, under whose direction Dorothy was playing on Saturday night, in "Jam on Both Sides." On this occasion, she performed on two harps, the second one a small Irish harp, purchased, of all places in Paris. Though not under contract she plays with the Montreal Symphony when a second harp is required and much of her work is done with the C.B.C., especially with the French Television network.

Rafael Masella was born into the world of music. He belongs to the well-known Italian family of musicians, all of whom, and there are eight, play a musical instrument professionally. Among them they

master three French horns, two violins and a bassoon. Rafael, the oldest is the third generation to play the clarinet.

Perhaps some of you had the pleasure this week of hearing the Masella Woodwind Group in "Serenade by Candlelight" in the Garden of the Montreal Museum of Fine Arts. In this delightful setting the rendering of Beethoven's "Quintet in E flat major" or the music of Mendelssohn and Mozart by these skilled musical brothers was particularly appealing. Rafael Masella was heard this week on C.B.C. Radio at 10:30 in the Distinguished Artists series. Though one may say that Rafael Masella was born into the concert world, his professional training for that world is excellent. He is a graduate of McGill University and is at present on the Faculty of Music there. He studied at the Paris Conservatory for two years.

The Masellas are bi-lingual; in fact, Rafael is tri-lingual, being fluent in Italian as well as in French and English. How fortunate is their three-year-old son John who will grow up bi-lingual without effort. This is the way it should be with more of us in French Canada.

# Apartment Living At The "ROYAL DIXIE"

by Kit McTavish

Seen from the Metropolitan Boulevard, or from a train, the ultra modern buildings of "Royal Dixie" catch the eye; the color-splash of bright umbrellas and blue swimming pool invite investigation. A growing fashion in suburban living, new apartment buildings are creating a desirable way of life designed for the best in comfort and recreation. At the Royal Dixie the latest in these features are attracting tenants from far places and of varied occupations. Interviewed at this development in Dorval were some of the families who are enjoying the features of country style living, streamlined conveniences.

Mr. and Mrs. P. F. Dalgleish were one of the first families to go into the apartments, last December. Phil Dalgleish had had wide experience in swimming instruction and Y. M. C. A. work, having served as athletic director for boys and girls camps. He was a natural to take over as manager of the new swimming pool when it was completed for the "Royal Dixie". The pool which is there for the enjoyment of tenants and their guests has to be run by rules which are sent out to each tenant, thereby ensuring safety and pleasure for all who use the pool. Mr. Dalgleish says that the pools are the real answer for the summer, "no one wants to go away, even on weekends." Mr. Dalgleish, who coaches the Lachine Maroons, is well known in hockey circles, having started out in Portland, Oregon, for the Pacific Coast League. He met his wife Rosemary in Louisville, Kentucky, and they have an engaging little daughter, Kandle Lynn, seven months old. Within handy driving distance in Ville St. Pierre is Standard Barrels and Drums Incorp.

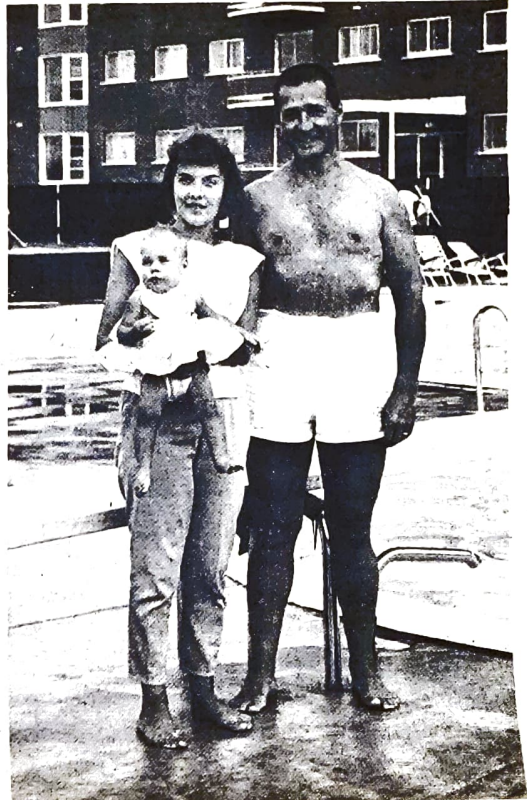

Mr. and Mrs. Roy Luker, former home owners in Dorval, seem sold on their apartment living. "No grass cutting, and no snow shovelling make life easy." Mr. Luker is Montreal representative for Canadian Office and School Furniture Limited -- Herman Miller, and he travels all over the island, and as far as Quebec City. An interesting sidelight on his Company's business which he mentioned was the fact that they designed, and are supply-

ing through The Robert Simpson Co. the furniture for the Department of Transport Airport Terminal in Dorval. The Luker's son Brian, 15, is going into Grade Eleven at Lachine High, and Wendy, 6, attends Meadowbrook School. It will be of interest to local residents to hear that Roy's parents, Mr. and Mrs. F. L. Luker, Sr., formerly of Handfield Circle, who had moved to their summer home at Knowlton, Quebec, have also taken an apartment at the "Royal Dixie". They came to look after Brian and Wendy during the summer, and decided to take an apartment there for their city residence.

Another resident, Mr. Bob Gourley, well known young man in Lakeshore and Montreal Drama Circles will be teaching Art at Lachine High School next year. His three and a half room apartment with sliding metal doors opening out onto a balcony is furnished in

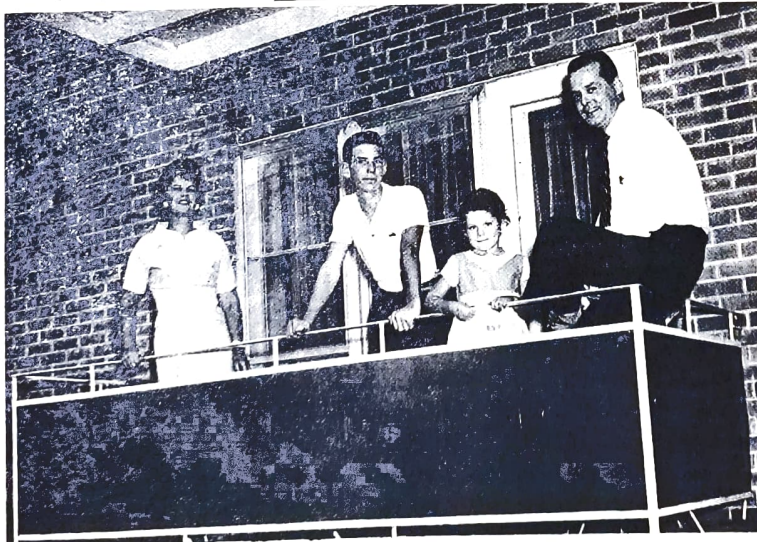

most original and attractive fashion -- an example of what can be done when one is talented. He designed and built a fireplace in wood, using simple lines and stark white finish to highlight the living room, with its burnt orange rug and white damask sofa. An unusual screen made of light openwork-carved panels creates a hall area; an antique cherry table and dark finished pine "ice-cream parlour" chairs, squat oil lamp and original painting in the dining area give to the apartment the distinctly individual touch.

Residents in the apartments may obtain permission to use the basement rooms for parties, and winter recreation facilities are in the planning stages. In the meantime, everyone enjoys the picnic tables under the curved pavilion shelter near the pool, or sits under an umbrella after a swim in the pool. They tell me, "This is the life!"

Mr. and Mrs. P. Dalgleish with Kandle Lynn stand in front of the pool. Mr. Dalgleish is pool manager.

Upper left, Mr. R. Gourley, Art teacher at Lachine High School sits in his attractive 3 1/2 room apartment.

Mr. and Mrs. Roy Luker, with Brian and Wendy relax on their balcony. Former homeowners, the Lukers are more than happy with their Royal Dixie apartment.

## Lac St. Louis Restaurant Robbed

Lac St. Louis Restaurant was broken into during the night of August 22. Thieves entered through a back window and the till was robbed of petty cash, and supplies are missing. Dorval Police are investigating.
