DISTRICT MANAGERS MONTHLY REPORT INCLUDING LEGISLATIVE REPORT:
Manager Kratz reported on the following:
Letter to Governor Brown Re: AB896 (Wildlife Management Areas) Support was sent September 5, 2014. Bill ensures a consultative process between Vector Control Districts and the Department of Fish and Wildlife and recognizes the need to prioritize Best Management Practices (BMPs). It will not result in additional workload, nor will it increase any budget – but could, in fact, save money. Copy of letter was provided to the board.

New paid sick leave mandate signed by Gov. Brown (AB1522 -Gonzalez )on September 11, 2014 will require that the District provide 3 days of sick leave for ALL employees. This law goes into effect on July 1, 2015. This means District Policy will need to be changed to reflect that benefit for Seasonal Technicians. The changes to the Policy will be presented to the Board for approval upon completion.
Received notice from Anderson-Penna that 104,823 parcels were submitted for Assessment. The projected income for FY2014/2015 (less any delinquencies) is $735,378. There are 548 parcels totaling $4,819 that the County would not accept assessments on and those properties are being assessed manually by the District. (These are local cities, water agencies, homeowner associations and schools). There are 155 parcels totaling $1,523 that cannot be collected by the County or manually. These parcels are utility, State, US Government and parcels that are currently in the process of changing ownership.

Since the last Board meeting on August 26, 2014, there have been three Press Releases in local news (August 28, September 3, and September 22, 2014) directly related to mosquito control. Two came from this office and the 3rd was released by Department of Health Services. In addition, an article introducing newly appointed Board Members Manning and Coleman included information previously provided to local news agency about mosquito control. Also, the District has continued the Public Service Announcements on a local Spanish speaking radio program.

Weather is cooling off in the evenings, and our season in the high desert will end October 31. Until that time, our technicians will continue with their daily field work. Our full-time technician will continue her surveillance and treatment of any area that may flare up during the off season. Our mechanic will begin maintenance, modifications and upgrades to our District vehicles at the close of the season.

Board members, especially the new members, are welcome to come in to do a ride along with a technician to see our field work first hand.
