About the Event:

Through fun and engaging hands-on activities, this event provides students and community members an opportunity to understand and learn about the world of manufacturing and visit with over 25 companies and educational institutions in a world-class R&D facility.

SEE live and engaging demos of CNC machines, 3D printing, laser cutting, robots, virtual welding and more!

LEARN about the exciting careers available in advanced manufacturing and industrial engineering!

SHAPE your future by visiting with industry and academic representatives all in one place!

Presented by:

Tent Sponsor:

Senator Betsy Johnson
