

Stage Make-Up

Make-Up for stage is very important; here are some guidelines to follow...

1. Foundation for face should be 1 shade darker than skin color.
2. Blush needs to be Red/Maroon, NOT PINK!
3. Lips must be Red.
4. Eye lids should have eye shadow that would complement the eye.
(Please do not put blue shadow from lid to brow, it shows up like a black eye on stage.)
5. Mascara is a must.
6. Eyeliners are optional. For small eyes, line the bottom lid of the eye only.
(Lining both closes the eye too much.)
7. Powder is used to set the face make-up, to give it a smooth look.
