

USA Archery Interpretation of the World Archery Camo Rules

Early in 2015, World Archery published an updated by-law to the rules governing Camo clothing and equipment. Camo is a pattern including colors traditionally found in nature: blacks, greys, greens, sand, beige, and whites (forest or desert situations). These new by-laws, which apply to World Archery events from World Ranking tournaments to multi-sport games, Continental Championships, World Championships and Olympic/Paralympic Games, state the following:

- Book 3 Target - Chapter 11 - Article 11.3.3: Athlete equipment shall not include camouflage colors of any kind.
- Book 3 Target - Chapter 20 - Article 20.1.1: No denim, jeans or camouflage clothes and equipment may be worn, no any oversize or baggy type pants or shorts.
- Book 4 Field and 3D - Chapter 33 - Article 33.3: Clothing and equipment shall not be camouflage.

USA Archery has determined that we will allow camo patterned equipment at all USA Archery sanctioned events. Camo clothing is still not allowed.
