- MULTIPLE ACCOUNTING PRINCIPLES AND IFRS CHANGEOVER.
- MIGRATION TO SAP NEW ERP FINANCIALS.

Successful Strategy for your IFRS reporting

OUR METHODOLOGY

ANG InfoTech has many years of consulting expertise in SAP ERP financials migrations and during the course; we have evolved with best practices and best methodology. We have standard templates for many of the standard solutions and this helps the process of migration project run faster and efficient. Our accelerated implementation methodology saves time and project costs for our customers.

WHY ANG INFOTECH?

At ANG InfoTech, we are responsible for migrating large-scale companies from SAP classic GL to SAP New General ledger. We work closely with SAP America for new developments and updates. We currently partner with SAP consulting on various SAP ERP General Ledger migration projects and implementations. We have best experience in understanding requirements and make recommendations and implement the solutions.

SUCCESS STORY - TELECOM

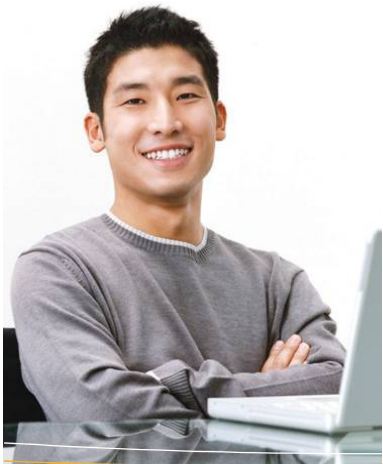

We have migrated successfully our telecom customer's SAP system from SAP "classic GL" to SAP ERP Financials with IFRS accounting in record time. At this client, we have also implemented allocations engine within GL module.

SUCCESS STORY - MEDIA

In this Media and Advertising client, we migrated successfully the current SAP system to SAP ERP Financials with project systems as main component for client P&L.

SUCCESS STORY - CANDY MAKER

In this Fortune 500 client, we have successfully cleaned up the existing SAP financials, redefined the coding block to suit the data for new General ledger migration and performed the migration with multiple ledgers.

WE'VE WORKED WITH A DIVERSE CUSTOMER BASE. HOW CAN WE HELP YOU?
