

ACE Database Recovery

1. Ensure that everyone is out of the ACE application.
2. Make a copy of the **ACEData.accdb** file.
 - Do NOT skip this step!
3. Double click and open the ACEData.accdb file.
4. You will see a message:

5. Click the OK button.
6. Follow any other instructions you may see.
7. Once you see the following screen click the Exit button.

8. You should now be able to open the ACE application program normally.
