Here is one that **Really Needs To Stay** on our farm to **Produce for Us**. That's how confident we are about the future of this girl and the **Impact She Will Have**. If it wasn't for the fact we are keeping her full sister born the year before, we wouldn't even consider entering **MSF Crystal Gayle** in this sale. Crystal keeps looking better every day. There is no doubt she would be in our **show string** going to every show we would be attending the next two years if it wasn't for this auction. Her sire, **Crocket**, needs no introduction. We have been raising purebred livestock for 50 years and have bred many National Champions in two species. **Crocket stands at the top** of all the studs I have ever owned. **Don't miss your chance** to own one of his **top daughters**.
