

Since our last board meeting, I've been busy contacting printers, following up on reports, ads, WOY submissions and calculating the Lady of Good Counsel Award.

Recreating the convention programs is a monumental task, requiring far greater computer skills than I have. I think, however, thanks to my daughter and a good friend, that everything will be in order, plus I've said a lot of prayers!

I have developed much more appreciation for the ladies that have gone before me! You need to hold this position to fully appreciate it!

I talked to Casey Pond at the Province Meeting in March and told her that I was the world's worst procrastinator, and her response was "Oh No You Can't Be" or you will drown. I wish I'd paid more heed to her words!

If you're reading this, it means Convention 2023 is in progress and will be over before we know it and we'll be looking forward to the NCCW convention coming to SLC in August.
