## Mayor's Report

**Dennis Morley**  
Mayor/Safety Director

It may not look like baseball season out there right now but it will be upon us in the next month. You can sign up for a chance to win 4 tickets to the Eastlake suite at the ballpark for Eastlake residents. You can sign up in my office or the building department Monday through Friday 8am to 4pm. Good Luck to all.

We have been working on the budget for the last few months and it should be passed by months end. 2019 ended with a 3.7-million-dollar carryover and income tax collections were up by 16% with a 1.1 million dollar increase. We are optimistic that all our businesses will continue to grow in 2020 and appreciate them all being in Eastlake. Thanks to all the directors and chiefs for continuing to stay within their budgets.

We will be adding one policeman, three fireman and a service worker in this year's budget. Our two new firetrucks should be here in May.

The February Vine Street Corridor Business meeting was held at Restore in Eastlake. It was a very informative meeting with businesses and non-profits sharing upcoming events and ideas on how to promote these events in our community. We also discussed the Business Spotlight, which was held on Sunday, February 16th, 2020 at the Powerhouse Gym (34700 Vine Street Eastlake). During the spotlight, the Powerhouse Gym offered free fitness and yoga classes, free smoothies and diet/muscle building foods. **Dave Spotton**  
Ward 4 Councilman

Hello Ward 4,

After a great 2019 we are working on continuing the upward trajectory with the 2020 budget. Also some very nice development projects that should be starting this spring.

Skate / ramp park update: The last ramp is large with a footprint, over 15 by 15 feet. This ramp was completed in multiple parts and has returned from powder coating. The while having some good weather the NCI students were able to weld the last ramp sections in place. Again we are working on a "grand" opening of the ramp park in the spring. Even though the ramp park in not complete it has had allot of interest and use, which is great. For updates: Facebook page (2019 Eastlake skate / ramp park)

Council President Meyers, the Mayor and I have been working on the splash park project also. We have been working with a different vender. A proposal was done and we are continuing to look into funding and will be sent out for bid.

With the warmer weather coming a reminder that "Slow Speed Vehicles" are legal in the City. Which means you may see a "side by side" ATV or a "golf cart" on any road that has a posted speed of 35mph or less. These vehicles must have safety equipment, lights, windshield, inspected, and be registered at the DMV. These vehicles will have same rights to the road as any other motor vehicles.

# Bankruptcy 101:

## SAYING GOODBYE TO THE STIGMA OF BANKRUPTCY

In 2011 there were 1.4 million consumer bankruptcy filings (Federal Court Website- www.uscourts.gov). Since then consumer bankruptcy filings have averaged over 1 million per year. Bankruptcy is now commonplace because it has become the only affordable source of financial planning for a large segment of the financially distressed population. This recessionary economy which is now the new and apparently sustained state of the world's financial outlook has dried up funds that used to be available through lending institutions, family members, savings and home equity. It is further complicated by creditors' general unwillingness to work with debtors by offering reasonable payment plans to help them get caught up. So, for many people, the choice becomes whether to pay bills or put food on the table.

Beyond this, there is the

continued fallout from the housing crisis and the still high number of foreclosures and people who are "underwater" on their mortgages. For these people, the choice is pay bills or lose the roof over their head. There is also extremely high inflation and ever-increasing gas prices with no end in sight. It used to be that grocery items would increase in penny increments. Now, it is not unusual to see them increase in fifty cent or even one dollar or greater increments. Further, there are the government entities at every level which are constantly looking for anything and everything that can be taxed, ticketed, or fined. On top of this and most pernicious and reprehensible is the human greed factor: The politicians who live lavishly off the sweat of the taxpayer's brow and put their own self interest, always, above that of the people. The large corporations who overcharge and engage in less than ethical business practices. And certain individuals and businesses who out of desperation

or dishonesty take advantage of others in the name of the almighty dollar. Certainly, it is not all politicians, corporations, people or businesses. But it is too many.

The law of Bankruptcy is the only tool that middle-class Americans must level the playing field. The fact is without it many people would be homeless or unable to survive. When I started in this business twenty-six years ago there was a stigma attached to filing bankruptcy. And it really was not justified even then because the largest part of our clientele was made up of people who had catastrophic medical bills and no insurance. But it was perpetuated because there were a certain percentage of filings attributable to people who had simply "over lived" by spending too much on fancy cars, vacations, clothes and "toys" and used the filing to "skate" out of their debt. This type of bankruptcy simply no longer exists. Yes, it was tightened up in 2005 with the introduction of more stringent laws. But the main reason it does not exist anymore is because people have not had the money or the mindset to engage

in that type of frivolous spending for some time. Moreover, the government has forced lenders to tighten credit to the extent that people are not able to borrow for frivolous unsecured purchases anymore.

The people who use bankruptcy now are honest, decent people who are using it to survive. They basically fall into two types. First, there are the people who are in an emergency. They are using bankruptcy (whether chapter 7 or chapter 13) to stop a lawsuit, a foreclosure, creditor harassment, a garnishment, utility shutoff, prevent a car from being repossessed or any number of the other types of relief it provides. And, second, are the people who see the disaster coming and want to cut it off at the pass so to speak. Either way, Bankruptcy is financial planning. It is a mechanism by which one can exercise control over his or her financial future in a positive way.

Further, the stigma is largely gone. It has become like divorce. In the fifties and sixties people who got divorced were

stigmatized. Now it is the norm. Anyone that made comments about a person because they got a divorce, nowadays, would be considered ignorant. It is the same with bankruptcy. Bankruptcy is a relatively affordable and fast mechanism by which one in financial distress can simplify their lives and regain their peace of mind. That is why so many people are using it. I always try to remind and encourage people that if you are truly in financial distress you need to recognize it and admit it so that you can fix it. You need to know financial hardship is temporary and fixable. Like anything, the earlier you fix it the better off you'll be. And the more money you and your family will have to start fresh and begin to live in peace again.

## 8th Annual "Pasta for Puppies" Event

Have you ever thought about what you would do if you became blind? Would you still be able to work? You certainly couldn't drive. How would you get around? Would you even want to get around? Would you treat it like your life was over, or is it just a challenge for you to overcome?

It's almost impossible to answer these questions unless it has really happened to you. But it is possible to help others that are living with loss of vision by supporting the efforts of Puppy Raisers for the Blind, Inc.

Through our puppy raising program, we can help people who have lost their sight, but not their vision of living a full and productive life. We encourage their bravery in moving forward with two beating hearts but only one set of working eyes. Receiving a guide dog is a life-changing event that opens the doors to independence, mobility and self-worth to individuals without sight. Even with all the advanced technology helping people with blindness, the most effective form of independence is still provided by four paws and a cold nose.

Becoming a working Leader Dog is perhaps the most difficult career a service dog could achieve. Complete training takes almost two years and it begins with volunteer Puppy Raisers. The Puppy Raiser will socialize and set the foundation for the skills they'll need to become successful guide dogs. The training starts when the pups are seven-weeks-old

and they remain with the raiser for approximately one year. During this year, volunteer Puppy Raisers are responsible for all expenses incurred, including veterinarian, dog food, supplies and travel to and from the Leader Dog school.

The volunteer position is both heartbreaking and rewarding. It is a major commitment of time, love and patience and the Puppy Raiser must be willing to give of themselves. In most cases, when the puppy is ready to return to Leader Dog school to begin its formal guide dog training, the Puppy Raiser is assigned another seven-week-old puppy and begins the year-long process all over again.

You can help support Puppy Raisers for the Blind by attending "Pasta for Puppies!" on Monday, April 6th, 5-9pm at the American-Croatian Lodge, 34900 Lakeshore Blvd. in Eastlake. Admission is \$20 per person. There will be a huge Chinese auction, a 50/50 raffle and lots of door prizes along with a great pasta dinner. You will also get the chance to meet working Leader Dogs, Service Dogs and puppies in training.

Donations for the Chinese auction are being accepted. If you have an item that you would like to donate, please give Linde a call at 440-951-2468 or email to LeaderDogPuppies@gmail.com. Should you wish for them to distribute your catalogs, fliers or business cards at the event, please

include them with your donation as they would be happy to do this for you.

Thanks to volunteers, fund raisers and donations from the community, Leader Dogs are provided free of charge to the blind and visually impaired. If you can not attend but would still like to help, you can mail a monetary donation to this 501(c)3 non-profit, payable to Puppy Raisers for the Blind, Inc. at 1168 S. Beachview Road, Willoughby, Ohio 44094.

Leader Dog puppies are born to serve as eyes for those whose eyes no longer serve them.

Without Puppy Raisers, there would be no Leader Dogs. Help support Puppy Raisers who give so generously of their time and love to these special pups!

"This is an ambitious route that aims to address many of top service requests we receive which is route service to Tyler Boulevard, Mentor Headlands and Mentor-on-the-Lake," explained Laketrans CEO Ben

Capelle. "Route 8 will improve access to manufacturing and retail jobs, shopping, and education. But first we want feedback from residents about how they envision this route to best serve them."

The Route 8 public hearing schedule is:

- Tuesday, March 10 from 6

# Ways to Cut Prescription Costs Down to Size

The costs for many prescription medications keep going up every day. Even those who have good insurance coverage are seeing their costs on the upswing. Without insurance, many people find themselves unable to keep up with their prescription costs and must do without.

Fortunately, there are a number of legitimate resources designed to help you cut the cost of your prescriptions down to size. Not every one of these resources will work in every situation, but you may find one or more of these resources that can help you.

**“Is this really the best price you can offer?”**

Don't be shy about questioning your pharmacist about the cost. Ask him or her if you can save money by paying cash instead of going through your insurance plan. Also, ask your doctor whether there is a generic version of your drug or if

he or she can give you free samples or discount.

## Use an App to Comparison Shop

Prescription costs vary widely between pharmacies. Get a quick idea of what your prescription will cost through any of the growing list of apps and websites that provide comparative pricing at pharmacies near you. Examples of these apps and website include [GoodRx](#) or [RetailMeNot Rx Saver](#) and [SingleCare.com](#) to name a few. Their comparative pricing service is provided free of charge. They often provide coupons and discount offers to help lower the final cost of your prescription, too.

## Assistance for Life-Saving Medications

The [Assistance Fund](#) provides assistance that can make the difference between life and death for some patients. This non-profit helps pay for some medications by

footing a significant amount of the out-of-pocket costs — including copayments, coinsurance, deductibles and other health-related expenses — for insured patients. The [Assistance Fund](#) tries to approve people for assistance within 24 hours because they know time is of the essence in many cases. You can see a list of diseases that are covered by The Assistance Fund at <https://tafcares.org>.

## Check Manufacturer Websites for Rebates

Manufacturers of brand-name drugs often offer rebates or other assistance to get people to try their medications at deep discounts or

for free. You will need to visit the drug manufacturer's website to learn whether any coupons, rebates or introductory offers available.

Always talk to your physician if you cannot afford your prescription. He or she may be able to recommend other resources to help you. Skipping your prescriptions is never a good choice.

### PLEASE VOTE YES ON ISSUE 1 ON MARCH 17<sup>TH</sup>

Decreased state funding, coupled with levy failures, have forced the district to cut several vital student programs and services including:

- busing for public & private school students, art and music programs, sports, middle school safety officers and many extra-curricular activities

If the March 17 levy fails, there will be even more cuts to the programs mentioned above as well as the elimination of some teachers and counselors and all elementary music and art classes. **Voting YES supports STUDENTS.**

No longer have kids in school? The passage of Issue 1 ensures strong schools, stable property values and a healthy community. It is critical that we all support our seniors, our students and our communities. **Voting YES supports your COMMUNITY.**

This 4.94 mill Emergency Operating Levy replaces cuts made by the State of Ohio totaling more than \$8.2 million/year. The last time the district asked for money for operations was 2012.

- This levy will cost an owner of a \$100,000 home 47 cents per day (\$172.90 per year).
- The money from this levy will not be used for construction; a bond passed in 2015 was used to build the new schools.

# Divorce 101:

**Divorce v. Dissolution:  
What is the difference?**

This article simplistically identifies the main issues in the termination of the marital contract and explains the difference between a divorce and dissolution. The issues in the termination of the marital contract are as follows: (1.) Allocation of Parental Rights and Responsibilities if there are children. The main issues regarding the allocation of parental rights and responsibilities would include who pays child support and how much, companionship time, formerly known as "visitation", who has custody or how is shared parenting, formerly known as "joint custody", to be allocated, who is responsible for health care/ insurance and how will the tax exemption be divided. (2.) Spousal support. Will one party pay the other spousal support

and how much and for how long? (3.) Property distribution. How will the marital real and personal property and all other marital assets be divided. (4.) Pension and retirement division, if in existence. And, finally, (5.) Allocation of marital debt. These are the main issues in every divorce and/or dissolution.

The most fundamental difference between a contested divorce and a dissolution and/or uncontested divorce is that in a contested divorce, the parties cannot agree on one or more of the issues; whereas, in dissolution or an uncontested divorce, the parties are in agreement. Dissolutions and uncontested divorces are very cost effective and can be finalized in as little as six weeks from the date of the filing. The cost of the divorce or dissolution will vary on the number of issues in the case. In a dissolution or uncontested

(no fighting) divorce the financial cost can be dramatically less than a contested divorce (the parties cannot agree on one or more of the issues) but, most importantly, the emotional cost to both parties and their children, if applicable, is much lower.

An action for divorce- if the parties cannot come to a voluntary agreement- can easily take a year or longer to finalize. There is the dread of runaway attorney fees averaging \$250- \$300 per hour. In a contested divorce (where the people are actively fighting) there is always the worry (which is justified) that the attorney will quit if you run out of money or the fear of receiving another several thousand dollar bill unexpectedly. The information gathering process referred to as "discovery" can become a costly and stressful nightmare. Discovery is not required with dissolution.

The emotional price of continuous daily resentment, depression, fear and worry

can become overbearing and destructive to one's health. Dissolution avoids all of this. That being said; It is very difficult to get two people who are usually not the best of friends to begin with to agree on all issues. All issues must be agreed to for a successful dissolution to occur. This requires compromise. The cardinal rule is that nobody walks away happy. Each party usually feels wronged in some way by the other. Each party usually feels that they could have obtained a better result if they would have just held out longer or been more aggressive. The truth is the law is pretty settled on how property and children are resolved. In most cases, you will not get a better result by engaging in prolonged litigation.

If the parties are unable to come to an agreement regarding all the issues, as is often the case, a divorce must be initiated. I try to resolve as many issues as possible before hand and communicate with the other party or his/her attorney to coordinate the process. It is always best to work together and focus upon resolution of the issues on which the parties agree. The purpose of

the attorney is to make the process as minimally painful, and least expensive as possible. Open and honest communication is key. Unfortunately, in many cases, the parties have so much resentment toward each other that they are simply unable to cooperate. This is never in anybody's best interest and can be very damaging to children.

There are certainly ways to minimize the pain and cost of a divorce but it will never be as efficient and emotionally healthy as two parties coming to a voluntary agreement with dissolution. I believe that a dissolution really should be possible in most cases if two factors are present (1.) the parties are mature, sensitive and intelligent and (2.) the matter is approached with a cost versus benefit business analysis, an open mind and sound professional guidance. I know this is easier said than done. But- if accomplished- the financial and emotional rewards (including healing time) reaped are enormous for the parties and children and will be enjoyed for the span of one's entire life.
