

Supervised Visitation Services

Encouraging Kids Family Resource Center, a non-profit 501c3 organization, offers supervised visitation services for non-custodial parents and their children when there is an order from Family Court or when requested by non-custodial parents.

This fee-based program provides a safe, secure, neutral environment where non-custodial parents and children can visit together. Trained staff and volunteers support and monitor these family visits. Our Supervised Visitation Program offers varied schedules to accommodate parents and children weekdays, weekends, evenings, and holidays. Security is on duty before, during and after visits.

Our staff and child-friendly spaces in New Jersey and Pennsylvania offer a comfortable environment for positive interaction. Visitations are generally held in Mercer County, NJ and/or off-site locations such as a park or restaurant throughout NJ & Eastern PA. Our goal is to reduce the amount of stress and travel time on the children involved.
