Aligning Transition and Standards-based Education:

Education: Issues and Strategies
Carol A. Kochhar-Bryant, Diane S. Bassett

Successful transition to life after school can often hinge on solid partnerships with community organizations that can offer support, services, or employment.

Customer Service Lesson Plans

Customer Service Lesson Plans for Middle and High School

The interpersonal skills that can be gained through customer service training can be applied to interactions between employees, interactions with suppliers, interactions with managers, and interactions with customers.

TRAINING

What Are Soft Skills?

So, What Are These Things Called “Soft Skills”? Soft Skills’ is a catch-all term referring to various behaviors that help people work and socialize well with others. In short, they are the good manners and personality traits needed to get along with others and build positive relationships. <https://goo.gl/pSwWxQ>

FEATURED IDEA OF THE MONTH

IDEAS FOR SPECIAL EDUCATION *Student Businesses*

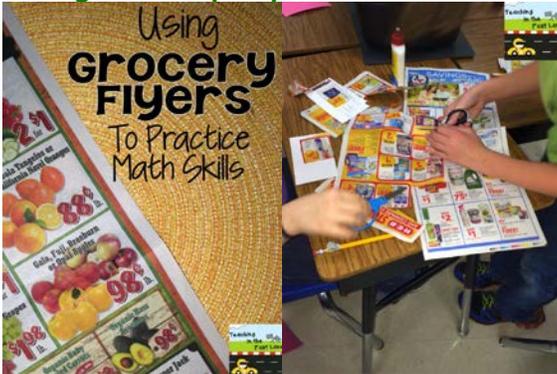

Going for something other than coffee carts.

Using Grocery Flyers To Practice Math Skills

Math Concepts to Explore

- **Rounding**—round the price of each item to find an estimate of the total bill.
- **Adding and Subtracting Decimals**—this is even more fun when you find a flyer that has coupons, because it is more authentic practice!
- **Multiplying Decimals**—for when you need more than one of an item or for adding tax to a purchase.
- **Multi-Step Problem Solving**—students create their own problems based on items and coupons then trade with a partner.
- **Planning**—find a recipe and plan a meal. Then figure out the cost of the items.
- **Graphing and Data**—use the prices or types of items as data to create tables, plots, or graphs.
- **Measurement problem solving**—decide what unit of measurement would be used for each item. Make a list of how much of each unit you want to buy.
- **Geometry**—identify any 3D shapes you can find.
