

SO,SC

Single Stage Centrifugal Pump

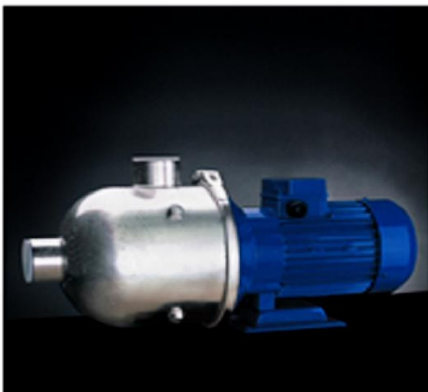

CDL,CDLF

Multistage pump with high pressure for complete industry application

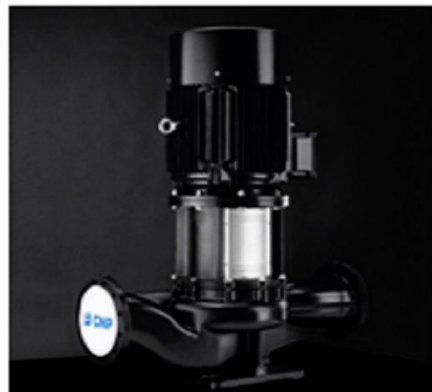

CDLK(F)

Immersion type multistage centrifugal pump for conveying coolant, lubricating liquid

CHL, CHLF(T)

Horizontal multistage stainless steel centrifugal pump

TD

Inline pump for heating and air-condition

ZS

Horizontal, single stage stainless steel pump

MS

Single stage stainless steel pump for cooling water, domestic supply, agriculture

JET

Self-priming JET pump for domestic

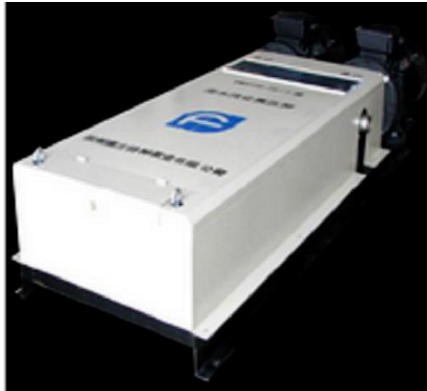

SWB

Single stage stainless steel pump, designed for domestic water supply, agricultural and horticultural applications

NISO

HP

Multistage pump with high pressure for complete industry application

SJ

Stainless steel borehole pump for underground water pumping

SP

Non-clogging self-priming sewage water pump

SZ

Single stage fluorine plastic for chemical application

Metering Pump

With a widely range for metering/dosing application

QY

Single stage, self-priming, gas-liquid max pump

WQ

Submersible pump for waste water

DQ

Constant pressure booster pump system

IQ

Variable speed booster pump system

YK

Series water supply system

NDS

Multistage heavy duty axially split casing centrifugal pump

NSC

Single stage double suction split casing centrifugal pump

VTP

Vertical turbine pump

DRL

Variable speed booster pump system

HMC

Horizontal, radially split ring section pump of modular design for water supply, mines, sea water

CA, CE, CF

Heavy Duty Petrochemical Process Pumps

HW

Mixed-Flow Pump
